

Raja Ramana Macha

EXECUTIVE VICE PRESIDENT AND CHIEF TECHNOLOGY OFFICER, EATON

Raja Macha is executive vice president and chief technology officer of Eaton, a power management company. Raja joined Eaton on December 1, 2020, in his role of chief technology officer.

Before joining Eaton, he worked as senior vice president and chief technology officer of the Industrial Automation business of Schneider Electric, where he was responsible for the overall innovation, technology and capability development for the business.

Prior to Schneider Electric, Raja led the R&D function of Invensys operations management and held other senior leadership roles in large projects and sales. Raja comes with 32 years of diverse leadership roles in automotive, information technology services and consulting companies in various manufacturing domains.

Raja received his bachelor's degree in electronics and communication from Indian Institute of Technology- Roorkee (India), and a master's diploma in business administration from Institute of Management Development and Research – Pune (India). Recent patent awards include unique computing methods to enhance availability of control systems.

*At Eaton, we **make what matters work** and know **what matters next.***

Powering Business Worldwide

Eaton's mission is to improve the quality of life and the environment through the use of power management technologies and services. We provide sustainable solutions that help our customers effectively manage electrical, hydraulic and mechanical power – more safely, more efficiently and more reliably. Eaton's 2020 revenues were \$17.9 billion, and we sell products to customers in more than 175 countries.
