

Aravind Yarlagadda

EXECUTIVE VICE PRESIDENT AND CHIEF DIGITAL OFFICER, EATON

Aravind Yarlagadda is executive vice president and chief digital officer for Eaton, a global power management company.

Prior to joining Eaton, Aravind was most recently executive vice president and general manager, Outcomes Business of Itron, a market-leading company delivering IoT solutions for the utilities and cities industry segments.

Throughout his career, Aravind has served in a number of leadership roles including senior vice president, Industry Business for Schneider Electric; vice president, Products, Invensys Operations Management Business for Invensys PLC; and chief technology officer and senior vice president, Product Development for Tyco Industrial Solutions.

Aravind currently holds key consultative roles with the Institute of Electrical and Electronics Engineers (IEEE), the International Society of Automation (ISA) and Smart City Forum. He is also a consulting staff member for the Energy Storage Association (ESA) and the Association for Manufacturing Excellence (AME).

Aravind has previously served as a board member for Los Angeles Cleantech Incubator (LACI) and IoT World.

He holds an MBA from University of California, Berkeley, a master's degree in computer science from Texas A&M University, and a bachelor's degree in engineering, electronics and instrumentation from Birla Institute of Technology and Science, Pilani, India.

*At Eaton, we **make what matters work** and know **what matters next.***

Powering Business Worldwide

Eaton's mission is to improve the quality of life and the environment through the use of power management technologies and services. We provide sustainable solutions that help our customers effectively manage electrical, hydraulic and mechanical power – more safely, more efficiently and more reliably. Eaton's 2020 revenues were \$17.9 billion, and we sell products to customers in more than 175 countries.
