

CompEx Hazardous Area Competency Modules Ex01–04 training course

This course provides competence-based training and assessment for electrical and instrumentation personnel working in hazardous areas. Practical “hands-on” training and assessment takes place in a realistic simulated environment, giving attendees a comprehensive learning experience that is directly related to a true industry setting.

Ex01

- Demonstrate ability to select appropriate cable glands for Ex d, Ex e, Ex n applications
- Complete a partial installation of Ex d, Ex e and Ex n equipment

Ex02

- Identify installation errors in Ex d, Ex e and Ex n equipment

Ex03

- Complete a partial installation of Ex i equipment
- Understand Ex i methodology and installation requirements

Ex04

- Identify installation errors in Ex i installations

Course objectives

Upon completion of the CompEx Ex01–04 course, the student will be able to:

- Demonstrate installation and inspection skills in hazardous areas
- Understand basics of Ex protection methods and where each may be used
- Demonstrate understanding of Ex markings
- Understand which activities are allowed and are not allowed with regards to maintenance and repairs

Learning techniques

In order to provide the highest quality training experience, this course will consist of the following instructional elements:

- **Instructor-led presentation**
The core elements of skill will be presented and demonstrated in a classroom environment.
- **Lab exercises**
Practical demonstrations of skill will be accomplished by the student.
- **Final exam**
The final exam will be administered via an online service. Lab assessments will also be administered.
- **Documentation**
The attendee will receive an attendance certificate from ATEC. Upon successfully passing the JTL exam, attendees will receive a certificate that is valid for 5 years.

Course details

Course number

AH / AS / AD-CMP-201

Target audience

Electrical installation and inspection personnel; assembly manufacturers

Location

Eaton Experience Center

3413 N. Sam Houston Parkway West
Suite 212A
Houston, TX 77086

Duration

5 days, 8 a.m. to 4 p.m.

Prerequisites

Proof of electrical qualification or employer letter. Proof of qualification: successful completion of ExF or equivalent number of years experience, plus a letter (reference / support / explanation of existing duties) from current employer.

Certification issued

Upon successful completion of separate modules, Certification of Competence issued by JTL. Valid for 5 years.
