

Utility energy storage solutions

Electrical balance of system for utility installations

Eaton's roots in the electrical industry run deep. As a bankable partner with 100 years of innovation, we are your single-source supplier of electrical balance of system solutions to help improve:

- Reliability
- Efficiency
- Safety

EATON

Powering Business Worldwide

Eaton provides complete electrical balance of system solutions from the DC bus and fusing protection, to the inverter, to the medium voltage interconnection to the grid.

Our inverter NEMA® 3R enclosures and outdoor electrical houses for support gear help protect equipment from the elements and keep it operating.

Eaton can also help support storage installations once they are operating. We offer an extensive selection of operations training for electrical power systems equipment, and we are a leader in electrical safety training. We can even help monitor and manage energy storage system performance with our remote performance monitoring services.

Eaton product solutions combine:

- DC switching (UL® 98 and UL 98B)
- Robust inverter technology—same reliable technology that is used in our solar inverters
- AC switchgear
- Integrated metering
- Customized packaging and preconfiguration

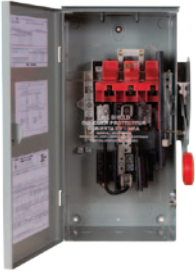

Eaton's electrical balance of system

- 1 DC combiners, switches and switched combiners (1000 Vdc)
- 2 Energy storage inverters and transformers
- 3 AC switchgear
- 4 Monitoring and metering
- 5 Electrical solar services

Electrical balance of system for utility installations

1 DC combiners, switches and switched combiners (1000 Vdc)

DC disconnect switches

DC circuit breakers

2 Energy storage inverters and transformers

Utility scale energy storage inverters—500 kW through 2000 kW

Cooper Bussmann DC fuses

DC switchboards

Medium voltage step-up transformer

3 AC switchgear

AC switchboards

AC disconnect switches

Custom switchboards

4 Monitoring and metering

Meters and software

AC circuit breakers

Medium voltage AC switchgear

Low voltage and medium voltage transformers and substations

5 Eaton electrical services
