

End-of-Life Announcement

EOL Product	BladeUPS
EOL Notice Date	April 25, 2023
EOL Owner	Jose L. Medina JoseMedina3@eaton.com

Effective immediately, Eaton is announcing that the BladeUPS product line will be transitioning to End-of-Life (EOL) status, with a scheduled transition to EOL on October 1st, 2023. Due to supply chain constraints, we are regrettably making this decision despite the overwhelming popularity of BladeUPS with both our end-users and partners and our desired preference to continue offering BladeUPS in the market. EOL units will be available on a first come, first serve basis until inventory is depleted. We encourage customers to work with their Eaton sales team to explore the variety of alternative solutions including the [Eaton 93PM](#), [Eaton 9355 UPS](#), [Eaton 9PXM](#), and [Eaton 9PX UPSs](#). Eaton understands that BladeUPS is a unique offer to the market, and we are dedicated to assisting our customers in whatever way possible during the transition. Service replacement parts and support will be available through Q3'2028 or until parts are depleted.

To review the optional replacement products mentioned above, please contact Eaton Pre-Sales Engineering Team at: CPDSalesengineering@eaton.com, 1-773-869-1236.

Part Numbers to be End-of-Life

Catalog Number	kVA	Description	Suggested Replacement Option UPS Product Lines
