

# Eaton 5PX G2 UPS

Secure, connected power protection with extended runtime designed for distributed IT.

## Build a complete solution

Eaton offers a full suite of power management solutions to make your IT environment more efficient.

### Intelligent power

Intelligent Power Manager (IPM) is an easy-to-use disaster avoidance platform with sophisticated capabilities that include triggering alerts and automating resolutions to keep applications running.

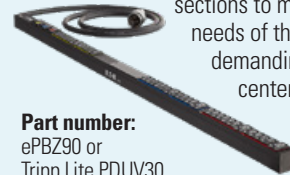

### Cybersecurity

Reduce your cybersecurity risk with the Gigabit Network Card, the first UPS connectivity device to meet the UL and IEC cybersecurity standards.

### Basic rackmount PDUs

Basic PDUs offer a low-profile form factor, receptacle choices and color-coded outlet sections to meet the needs of the demanding data center architect.

**Part number:**  
ePBZ90 or  
Tripp Lite PDUV30
