

Eaton 9170+ UPS end-of-life announcement

Effective December 31, 2018

Eaton is announcing end-of-life (EOL) status for the Eaton 9170+ UPS. The current 9170+ product line will be refreshed by the [Eaton 9PXM UPS](#).

Eaton is preparing to continue production of the 9170+ chassis through the official EOL date, but customers should expect a price increase beginning in **Q4 2018**. Thereafter, price concessions on the 9170+ chassis will only be negotiated for large volume opportunities.

Given the large install base and modular design of the 9170+, Eaton will continue to produce the supported parts ASY-0529, ASY-0673, ASY-0674 and ASY-0675 at market pricing beyond 2018, through the reasonable life of units installed in the field. This includes any 9170+ installed in 2018. There currently is not an EOL date planned for those parts. Eaton will notify customers of an EOL date for 9170+ supported parts at the time demand has diminished below justifiable stocking quantities. At that time, support parts will be available on a first come, first serve basis until stock is depleted. We appreciate your support as we transition all our customers.

EOL Eaton 9170+ part numbers and Eaton 9PXM replacements

Catalog number	Style number	Description (opt)	Replacement
