

End-of-life (EOL) notification for 9390 UL 924 UPS models

With Eaton's recent launch of a new line of UL 924-certified products based on the 93PM UPS platform, all UL 924-certified 9390 models will be transitioning to EOL status **effective October 1, 2016**.

Customers who have designs based on the 9390 or who wish to expand their current system should contact the product manager for exception requests. For a full list of affected models and replacement parts, please see the table below:

EOL part number	Replacement part number
TA0412001130010	9PA04C0020A00L2
TB0512001130010	9PK05C0020A00L2
TB0612001130010	9PK06C0020A00L2
TB0812001130010	9PK08C0020A00L2

Please note that service support and spare parts will continue to be available for the 9390 UL 924 product.
