

## Eaton FERRUPS UPS end-of-life announcement

Effective August 31, 2019

Eaton is announcing end-of-life (EOL) status for the following Eaton FERRUPS UPS (FE500VA, FE700VA, FE850VA). The current FERRUPS product line will be refreshed by the Eaton FX UPS series.

Beginning September 1, 2019, the above-mentioned FERRUPS models will no longer be available for purchase. Due to the limited supply of components for these products, last time bulk purchases will not be offered during this period. Projects where these models are currently being quoted, beyond the EOL date, should be re-specified to a non-end of life product. If this is not possible please reach out to Eaton for immediate assistance, as some exceptions can be made.

We appreciate your support as we transition all our customers.
