Bulletin

Effective March 31, 2019, Eaton is announcing end-of-life (EOL) status for the FERRUPS accessory kit RCK-0007.

Eaton has decided to EOL the RCK-0007 accessory kit for the FERRUPS products where the kit is required for subassembly. Beginning April 1, 2019, the RCK-0007 will no longer be available for purchase as an accessory kit for the FERRUPS product line. FERRUPS models that ship standard with the RCK-0007 will continue to do so. Due to the limited supply of RCK-0007, last time bulk buys will not be offered on this accessory. It will still be possible to communicate and receive diagnostics from FERRUPS products without the accessory kit by utilizing a PC with a serial connection. For details on this process please contact Eaton's single-phase support team at 800-356-5737, option 2, option 2.

We appreciate your support and understanding. Please reach out to us with any questions or concerns.
