

POWER PROTECTION SOLUTIONS FOR DATA STORAGE

Keep your valuable business data protected from corruption or loss due to damaging power problems.

Rapidly expanding data requirements have pushed growth within IT infrastructure, but also presented new challenges. Safeguard your business's most valuable commodity.

Evaluate your data storage environment with a few simple questions:

1 ARE YOU VIRTUALISED?

Manage the most critical VMs on your servers and provide maximum uptime with Eaton's Intelligent Power Manger (IPM) software, which seamlessly integrates into the VMware and Citrix hypervisors.

2 DO YOU HAVE THE REQUIRED BACKUP RUNTIME TO ENSURE DATA INTEGRITY?

Eaton's extended battery module capabilities provide added backup runtime required to power through outages and facilitate graceful shutdown of storage devices.

3 DO YOU HAVE PLANS FOR EXPANSION?

As an infrastructure grows, Eaton UPSs provide class-leading power density and the modular capability to expand the IT environment as needed.

4 DO YOU HAVE A BUSINESS CONTINUITY PLAN IN PLACE IN THE CASE OF A LONG-TERM POWER OUTAGE?

Eaton's power protection solutions, in combination with IPM, initiate vCenter policies (SRM/HA mode) during a power event for fast and reliable automatic failover and failbacks.

Powering Business Worldwide

NEW TO BACKUP POWER AND POWER MANAGEMENT?

Check out Eaton's UPS and power management fundamentals handbook at www.eaton.com/UPS

Intelligent Power Protector (IPP)

IPP facilitates a graceful shutdown of protected IT systems in case of a prolonged power failure to prevent data loss and file system corruption. It has also monitoring and alarming functions for a single UPS.

Intelligent Power Manager (IPM)

IPM facilitates easy, versatile, remote monitoring and management of multiple Eaton devices in a single web interface to keep users apprised of power and environmental conditions.

IPSS software can be downloaded from the Eaton website at:

*IPM free license up to 10 devices

SELECTION GUIDE

Eaton 5PX UPS

5PX Models, International 230V, 50/60Hz

	PART NUMBER	RATING	INPUT CONNECTION	OUTPUT CONNECTION
	5PX1500iRT	1500/1350	IEC C14	(8) IEC C13
	5PX2200iRT	2200/1980	IEC C20	(1) IEC C19, (8) IEC C13
	5PX3000iRT2U	3000/2700	IEC C20	(1) IEC C19, (8) IEC C13

5PX Battery Options

	5PXEBM48RT			
	5PXEBM72RT2U			
	NETWORK CONNECTIVITY			
	Network-MS	Network Management Card		

Eaton 9PX UPS

9PX Models, International 230V, 50/60Hz

	PART NUMBER	RATING	INPUT CONNECTION	OUTPUT CONNECTION
	9PX5KiRT	5000/4500	Hardwired	Hardwired, (2) IEC C19, (8) IEC C13
	9PX6KiRT	6000/5400	Hardwired	Hardwired, (2) IEC C19, (8) IEC C13
	9PX8KiRT	8000/7200	Hardwired	Hardwired
	9PX11KiRT	11000/10000	Hardwired	Hardwired

9PX Battery Options

	9PXEBM180RT (For 5KVA and 6KVA models)			
	9PXEBM240RT (For 8KVA and 11KVA models)			
	NETWORK CONNECTIVITY			
	Network-MS	Network Management Card		

Eaton ePDU

	PART NUMBER	DESCRIPTION	INPUT CONNECTION	OUTPUT CONNECTION
	EBAB22	Basic, 16A ePDU, 0U	IEC C20	(4) IEC C19, (20) IEC C13
	EBAB05	Basic, 32A ePDU, 0U	IEC C309	(20) IEC C13, (4) IEC C19, 2 x MCB
