

# Condulet FE and FT elbows and tees

For IEC applications

## Applications:

FE and FT conduit fittings are installed in hazardous areas to:

- Act as draw-in outlets, especially for cables that are stiff due to large size or type of insulation
- Make 90° bends in conduit systems, allowing for a straight pull in either direction
- Provide access to wiring for maintenance and future system changes

## Features:

- Maximum volume for bends within a compact overall size
- Large openings to facilitate cable pulling
