**5.2 Specific Hazards Arising from the Chemical:** None known.

**5.3 Advice for Firefighters:** Use firefighting measures that suit the environment. Firefighters should wear a NIOSH-approved, full-face piece self-contained breathing apparatus (SCBA) operated in positive pressure mode and full turnout gear with additional chemical protective clothing as necessary to prevent exposure to hazardous decomposition products. Thermal decomposition will produce carbon oxides, nitrogen oxides, ammonia, and toxic hydrogen cyanide.

## Section 6 Accidental Release Measures

**6.1 Personal Precautions, Protective Equipment and Emergency Procedures For Non-emergency Personnel:** Keep unnecessary and unprotected personnel from entering. Do not touch or walk-through spilled material. Provide adequate ventilation. Wear appropriate respirator if ventilation is inadequate. Put on appropriate personal protective equipment. See Section 8 for appropriate personal protective equipment.

**For Emergency Responders:** If specialized clothing is required to deal with the spillage, take note of information in Section 8 on suitable and unsuitable materials. See also the information in "For nonemergency personnel."

**Personal Protection:** Wear protective equipment appropriate for the level of exposure. Keep unprotected persons away.

**Emergency Procedures:** Isolate the hazard and deny entry to unnecessary and unprotected personnel. Avoid prolonged skin contact.

### 6.2 Environmental Precautions:

Avoid dispersal of spilled material and runoff and contact with soil,

waterways, drains, and sewers. Ensure adequate ventilation. Inform the relevant authorities if the product has caused environmental pollution (sewers, waterways, soil, or air).

### 6.3 Methods and Materials for Containment and Cleaning Up

**Small Spill:** Isolate the spill and deny entry to unnecessary and unprotected personnel. Absorb with liquid-binding material (sand, diatomaceous earth, acid absorbent, universal absorbent, or sawdust). Dispose of contaminated material as waste in accordance with national and local regulations. Do not walk through or otherwise scatter spilled material.

**Large Spill:** Follow instructions for small spill.

## SECTION 7 HANDLING AND STORAGE

### 7.1 Precautions for Safe Handling:

Do not open cans or outer foil bag until ready to use. Avoid contact with skin, eyes, and clothing. Do not breathe vapors or mists. Wash thoroughly after handling and before meals, breaks, and smoking. Do not eat, drink, or smoke in work and storage areas. Do not store food, cosmetics, cigarettes or other personal items in storage and use areas. Ensure good ventilation/exhaustion at the workplace. Prevent formation of aerosols. Use only in well ventilated areas.

**Advice on General Occupational Hygiene:** Routine occupational hygiene measures for industrial areas should be followed. Do not eat, drink, or smoke in areas where this material is handled, stored, and processed. Employees must wash hands and face before eating, drinking, or smoking. Remove contaminated clothing and protective equipment before entering eating areas. See also section 8 for additional information on hygiene measures.

### 7.2 Conditions for Safe Storage Including any Incompatibilities:

Store in a well-ventilated area. Keep containers well closed. Protect from humidity and water. Because this material is incompatible with oxidizers, it should be stored away from oxidizing agents.

**7.3 Specific End Uses:** Use only as part 2 of a two-part rigid polyethylene foam industrial sealant.
