

4" square boxes for corrugated steel walls

Overview:

Eaton's Crouse-Hinds 4" square boxes are now configured for use in corrugated steel building construction.

Features:

- 4" square, 2-1/8" deep, 30.3 cubic inch capacity
- Elevated knockouts on right & left sides of the box eliminate the need for conduit bends
- UL Listed

Elevated side knockouts eliminate the need for conduit bends
