Product Change Notification PCN-BUR-00194

Subject: Eaton's Bussmann series CHPV15H85 Fuse holder

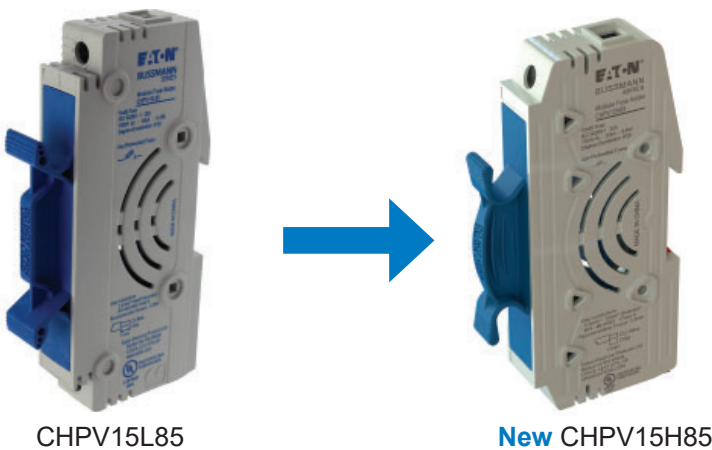

Dear Customer,

As part of Eaton's commitment to continuously improve its global product line, we are pleased to inform you that Eaton's Bussmann series 1500 V d.c. 10 x 85 mm fuse holder, part number CHPV15L85, will be replaced by our new version **CHPV15H85**.

Our new fuse holder is a direct replacement: the physical footprint, the technical performance and agency approvals are similar to the CHPV15L85. The only difference is the pack quantity: the CHPV15L85 comes in pack of 12, the CHPV15H85 will be sold in pack of 10.

Please refer to Eaton.com and our CHPV15H85 data sheet TD135010EN for more details.

The current CHPV15L85 is still fully saleable, orders can still be placed while stocks last. Once the stock of CHPV15L85 has been drained, the new CHPV15H85 will automatically be sent in its place.

If you would like further information on this, please contact the undersigned.

Yours sincerely,

Amar Ratanshi
Product Manager
Bussmann series products, Power Management & Control Component Division
