

# PV Protection Made Simple

## Unmatched Global PV Fuse Offering up to 1000Vdc

- UL, CCC and IEC (gPV) certified to support a global application design, removing additional certification requirements
- Industry's most complete Solar PV fuse offering that allows for protection anywhere in the PV installation
- Specifically designed to provide fast-acting protection under low fault current conditions associated with PV systems
- Bolted and bladed configurations provide versatile mounting options
- Demonstrated performance in extreme temperature cycling conditions
