To Whom It May Concern:

UL Listed Molded Case Circuit Breakers are required to meet the requirements of the UL 489 Safety Standard. The following is a list of the primary tests that they are required to undergo:

UL 489 10 th Edition Paragraph #	Test Description
7.1.2	Calibration
7.1.3	Overload
7.1.4	Temperature
7.1.5	Endurance
7.1.7	Interruption
7.1.8	Trip-out at 200 percent current
7.1.9	Dielectric Voltage-Withstand Test
7.1.11	High Available Fault Current Test Sequence

It should be further understood that this list is NOT all-inclusive. All required testing is fully documented in the UL 489 Safety Standard.
