PRODUCTS

CLASS 1432 01 - CIRCUIT BREAKERS - Moulded Case Type

Circuit breakers, moulded case type, K-frame, Series C, Type HKD, 100-400A, 2-4 pole, 600V ac and less, 250V dc and less (thermal magnetic trip unit devices only). Type HKDDC, 100-400A, 3-pole, 600V dc max. Type Ki, 400A, 480V ac, 3-pole

Notes:

1. These circuit breakers may be marked with the following high current interrupting ratings in RMS symmetrical kilo amps:

Type	Poles	Volts ac (50/60Hz)		Volts dc*	
		240	480	600	250
HKD	2,3,4	100	65	35	22
Ki	3	35	20	-	10

*Thermal magnetic trip unit devices only.

Certificate: 1299665

Master Contract: 163545

Project: 2452444

Date Issued: February 6, 2012

HKDDC (3-poles in series) 600V dc/42kA/8ms. HKDDC (2-poles in series) 250V dc/50kA HKDDC (1-pole) 125V dc/42kA

2. The mechanism is trip-free of the handle which assumes a mid-position between "ON" and "OFF" upon automatic tripping.
3. Three pole breakers are suitable for use on single phase ac circuits using the two outside poles.
4. Type designations may be with or without Suffix "L". Suffix Letter "L" designates wire connectors provided at both ends. No suffix letter indicates wire connectors provided on one end only, or breakers may be used optionally without wire connectors or keeper nuts at either end.
5. These circuit breakers are suitable for use with CU and AL conductors rated 75C (100A rating may use 60/75C conductors).
6. Accessories for use with these circuit breakers are described in Report LR 43556-18.
7. These circuit breakers have a push to trip feature.
8. These circuit breakers are thermally uncompensated calibrated to 40C, Option B requirements.
9. Wire connectors may be factory installed or supplied in kit form for field installation.
10. These circuit breakers are suitable for use with reversed line/load connections.
