Re: 0603ESDA-TR1 End of Life Notification

Dear Valued Customer,

On April 12, 2013 Cooper Bussmann will no longer be offering the 0603ESDA-TR1 ESD suppressor.

It is being replaced with the 0603ESDA2-TR2. This replacement has the same footprint as the 0603ESDA-TR1 with an increased maximum operating voltage of 30V (compared to the 24V maximum operating voltage of the 0603ESDA-TR1). The 0603ESDA2-TR2 is halogen free, lead free in addition to being RoHS compliant.

The End-of-Life date for the 0603ESDA-TR1 is April 12, 2013.

The last time order date is April 19, 2013, or until inventory is exhausted.

The last ship date is April 30, 2013.

For the specifications of the replacement 0603ESDA2-TR2, see [Data Sheet # 4419](#).

If you have any questions about this End-of-Life notice and its replacement, please see your local Cooper Bussmann representative or contact FuseTech@CooperIndustries.com.

Thank you for your business and cooperation during this upcoming transition.
