September 23, 2005
To: N Fuse Customers
Subject: **N Fuse END of LIFE NOTICE**

Due to the low N fuse market demand and manufacturing site consolidations, the Cooper Bussmann N ¼” ferrule fuse Series is at its end of life as a current product offering.

The two recommended alternatives are the:

- MDL time-delay glass ferrule fuse Series
- MDA time-delay ceramic ferrule fuse Series.

Both have a ¼” x 1 ¼” footprint, and meet or exceed the voltage ratings of the N fuse. However, they don’t offer the keyed end cap construction of the N series.

Data sheets for the MDL and MDA Series are on our website (www.cooperbussmann.com).
