May 25, 2012

Dear Valued Customer:

Cooper Bussmann is adding a new manufacturing facility in the Philippines for its Coiltronics brand of magnetics (inductors and transformers).

This new manufacturing facility will enhance our ability to better serve you and support our future growth.

This new facility will be operational on or before the fourth quarter of 2012 and is located at:

Cooper Industries Philippines LLC, Philippine Branch

No. 7 Makiling Drive (Lot B2-1E)
Carmelray Industrial Park II
Barangay Tulo
Calamba, Laguna
Philippines 4027

This new Philippines facility is an addition to our current facility in Dongguan, China.

Associated with creating another manufacturing facility, the Country of Origin (COO) for certain products may be affected short term, as product will be manufactured in both China and the Philippines.

Regardless of the manufacturing plant location, both facilities will utilize the same designs, materials and process with no change to form, fit, function or performance.

Cooper Bussmann is committed to providing all customers with high quality products and services. If further information is required regarding this notification, please contact your Cooper Bussmann representative. We thank you for your continued support of Cooper Bussmann and the Coiltronics brand of magnetics.

Regards,

Steve Ulm
Group Products Director, Electronics
