

Product Change Notification CB61F Series Brick™ Fuse

July 18, 2012

Cooper Bussmann has revised the package code options for the CB61F Series of fast-acting Brick fuses.

The “-TR” package code suffix is no longer available (used to designate 5000 fuses in tape-and-reel on a seven inch diameter reel).

It has been superseded by the “-TR2” package code suffix.

When ordering the CB61F Series, please use the following package code options:

- “-TR1” for 1000 fuses in tape-and-reel on a seven (7) inch (178mm) diameter reel
- “-TR2” for 5000 fuses in tape-and-reel on a thirteen (13) inch (330mm) diameter reel

For more details on the CB61F Series, see data sheet # 4377 online at www.cooperbussmann.com/DatasheetsElx.

If you have any questions about this product change notice, please contact your local Cooper Bussmann Sales Representative or Applications Engineering.

Thank you for your business and cooperation during this upcoming transition.
