Date: March 13, 2014
To: Coiltronics FP0906 Series Inductor Customers
Subject: Product Change Notice – Part Marking

Dear Valued Customer:

As a result of Eaton acquiring Cooper Industries (including the Cooper Bussmann Division Electronics business unit), new branding standards are being implemented.

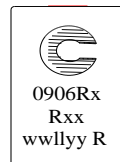

Effective March 13, 2014, the Eaton Electronics Division of Eaton's Electrical Group is removing the traditional Coiltronics capital "C" logo from the FP0906 Series inductor part marking.

There is no change to any of the FP0906 Series inductor specifications, performance or other part marking information.

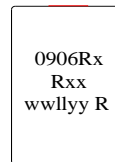

There is no need to update any part number files. All inventory of existing product is saleable product and should not be returned.

The illustrations below show how the part marking will change with the removal of the Coiltronics capital "C" logo.

Before change

After change

Eaton is committed to providing all customers with high quality products and services. If further information is required regarding this Product Change Notice, please contact your Eaton representative. We thank you for your continued support of the Coiltronics brand of magnetics.

Regards,

Jenny Li
