To: **HBH Fuse Holder Customers**
Date: **September 9, 2008**
Subject: **Agency Approval Change**

Cooper Bussmann has removed the VDE Agency approval from our HBH fuse holders inside the HB Series offering for 1 ¼" x ¼" and 5 x 20mm fuses.

Starting June 16, 2008, all HBH fuse holders have been manufactured without the VDE marking.

All other fuse holders inside the HB Series will continue to have the VDE marking.

The HB Series data sheet reflecting this change is available online at www.cooperbussmann.com/datasheets/elx.

Thank you,

Steve Dawson
Senior Product Manager, Circuit Protection
