**Date:** February 2, 2012

**To:** Customers of HTC Series Fuse Holders, Blocks and Clips, and Panel Mount Holders for 5x20mm Fuses

**Subject:** Product Change Notice - Agency Information Update

Cooper Bussmann changed its supplier on these parts.

In the process, our new supplier altered the applicable agency information. Specifically, the previous CSA certifications were abandoned in favor of applying a combined cURus to cover both the United States and Canadian markets.

This change was not communicated through proper channels so that the Cooper Bussmann literature on the HTC Series and the CSA files (maintained by CSA) were not revised to reflect the change from CSA to cURus.

As of the date of this Product Change Notice, the Cooper Bussmann data sheet # 2110 for the HTC Series is updated to reflect applicable agency information and is online at [www.cooperbussmann.com/datasheetselx](http://www.cooperbussmann.com/datasheetselx).

If you have any questions about this, please contact your local Cooper Bussmann representative.

Thank you for your business and your cooperation.
