

Product Change Notice

PCN#: EE-PCN23001

1/20/2023

CLASSIFICATION OF CHANGE:

End of Life

DESCRIPTION OF CHANGE:

The 6125FF fuse family has reached end of life. The recommended replacements are from Eaton's 2410FA and CB61F fuse families.

REASON FOR CHANGE:

To streamline production and rationalize Eaton's 2410 EIA (6125) fast-acting fuse families.

EXPECTED INFLUENCE ON QUALITY, RELIABILITY, AND PERFORMANCE:

The 2410FA and CB61F families are both fast-acting fuses that offer many of the same voltage, current and interrupting ratings as the 6125FF along with similar time vs current opening performance. In addition, the 2410FA and CB61F offer similar product dimensions and PCB pad layouts. Product dimension and pad layout comparison is provided on the following page of this document. The specific characteristics on each of the fuse part numbers can be found on the respective data sheets: [2410FA](#) | [CB61F](#) | [6125FF](#).

PARTS FAMILIES AFFECTED:

See following page for part number list and recommended replacements.

TIME SCHEDULE:

Last Time Buy Date: July 31, 2023

Last Time Shipment Date: November 30, 2023

SAMPLE AVAILABILITY:

Available upon request

QUALIFICATION DATA:

Available upon request
