# Release Notes
# J1939 Extension Library for Pro-FX<sup>TM</sup> Control
**Version 1.0**

The J1939 Extension Library for is a utility library to supplement the functionality provided by the J1939 stack built in to Pro-FX Control.

## Features
- PGN receive timeout
- Transport protocol
- Support for DM1, DM2, and DM3

## Installation
Download J1939Extension.zip from eaton.com/Pro-FX. Unzip this file to your hard drive. From Pro-FX Control, open the Library Repository. Install the two library files from the zip file. Close the Library Repository.

## Known issues
- If a PGN which is not supported in the built-in stack is requested, that stack will respond with a NACK, even though the extension library may respond with a PACK.
