

Enclosures You Want, When You Need Them

We are excited to announce the improved B-Line series electrical enclosure website that is dedicated to our full line of industrial and commercial B-Line series enclosures. The improved site is easier to navigate and includes the key tools and literature tied to helping you find the enclosures you want; in the time you need them.

And now, you can access all of our industrial and commercial enclosures, as well as wireway products, in CoSPECSM, our CAD, BIM, PDMS, and Graphics catalog. CoSPEC allows you to select, view and download native design content in nearly 100 different formats.

Log on today to see the latest enclosure information at www.eaton.com/enc

The screenshot displays the B-Line website interface. At the top left is the logo "B-Line by EATON". A navigation bar includes "COOPER" and "B-LINE" tabs, and a menu with "ABOUT US", "PRODUCTS", "SOLUTIONS", "MARKETS", "BRANDS", and "RESOURCES". Below the navigation bar is a breadcrumb trail: "Cooper Industries > B-Line > Products > Electrical Enclosures & Wireway". A search bar is located on the left with a "SEARCH" button and an "Advanced Search" link. The main content area features the heading "Electrical Enclosures & Wireway" above an image of a grey electrical enclosure. To the right is a "CoSPEC" section, described as a "Specifier center to select, view and download engineering data and drawings for B-Line products in up to 100 different formats." Below this is a section titled "Enclosures You Want – When You Need Them" with a sub-heading "At B-Line, we offer solutions to meet our customer requirements. From standard stock product to modified and custom enclosures, our Enclosure Experts are available to help you choose the enclosures you want – when you need them." This section includes a "Show all Hide all" link and a list of expandable items: "+ About Cooper B-Line Enclosures", "+ What's New in NEMA Enclosures at Cooper B-Line", "+ Technical Information & Product Selection Tools", "+ Literature & Resources", and "+ Enclosure & Wireway Product Overview". At the bottom of this section is a "COSPEC SPECIFIER CENTER" header, followed by text explaining the center's purpose and a link to "Visit CoSPEC Specifier Center". The final section is "SEARCH PRODUCTS" with a dropdown menu labeled "Select from the following product attributes..." and a search icon.
