* "Electrical Cost Data" RSMMeans, 29th Annual Edition, 2011

Description of comparison & testing

- RSMMeans data was collected to determine the installation time and the number of installers required to install various sizes of traditional wireway
- Time studies were conducted to determine the time required to install hinge cover wireway using both the industry standard wireway connectors and the new Quick-Connect method
- The time saved using the new Quick-Connect method was subtracted from the RSMMeans data
- The savings in % labor, (\$) per piece, and (\$) per hundred pieces was calculated to provide an estimate of total installed cost savings
