according to Regulation (EC) No. 1907/2006 (REACH)

Revision date: 4 Oct 2021 Print date: 4 Oct 2021 Version: 4

Page 1/8

Panzym AG XXL

SECTION 1: Identification of the substance/mixture and of the company/ undertaking

1.1. Product identifier

Trade name/designation:

Panzym AG XXL

Additional information:

The substance does not require registration according to REACH.;

1.2. Relevant identified uses of the substance or mixture and uses advised against

Use of the substance/mixture:

Enzyme preparations are biocatalysts used in a variety of industrial processes within food manufacturing

1.3. Details of the supplier of the safety data sheet

Supplier (manufacturer/importer/only representative/downstream user/distributor):

Eaton Technologies GmbH Langenlonsheim Branch An den Nahewiesen 24 55450 Langenlonsheim Germany Telephone: +49 6704 204-0 (Diese Nummer ist nur zu Bürozeiten besetzt.) Telefax: +49 6704 204-121 E-mail: SDB@Eaton.com Website: www.eaton.com/filtration

1.4. Emergency telephone number

Notfallauskunft bei Vergiftungen: Giftinformationszentrum Mainz (Deutsch und Englisch). Emergency medical information: Poison information center Mainz (German and English)., 24h: +49 6131 19240

SECTION 2: Hazards identification

2.1. Classification of the substance or mixture

Classification according to Regulation (EC) No 1272/2008 [CLP]:

Hazard classes and hazard categories		Classification pro cedure
Respiratory or skin sensitisation (Resp. Sens. 1)	H334: May cause allergy or asthma symptoms or breathing difficulties if inhaled.	

2.2. Label elements

Labelling according to Regulation (EC) No. 1272/2008 [CLP] Hazard pictograms:

Health hazard

Signal word: Danger

hazard statements for health hazards				
H334 May cause allergy or asthma symptoms or breathing difficulties if inhaled.				
Precautionary statements Prevention				
P261	Avoid breathing dust/fume/gas/mist/vapours/spray.			
P285	In case of inadequate ventilation wear respiratory protection.			

according to Regulation (EC) No. 1907/2006 (REACH)

Revision date: 4 Oct 2021 Print date: 4 Oct 2021 Version: 4

Page 2/8

Panzym AG XXL

Precautionary statements Response

	IF INHALED: If breathing is difficult, remove victim to fresh air and keep at rest in a position comfortable for breathing.			
P342 + P311	If experiencing respiratory symptoms: Call a POISON CENTER/doctor/			

2.3. Other hazards

Adverse physicochemical effects:

On basis of test data.: none

Adverse human health effects and symptoms:

Repeated inhalation of enzyme dust or aerosols resulting improper handling may induce sensitization and may cause allergic type 1 reactions in sensitized individuals.

Irritant effect on the skin: mild irritant.

Irritant effect on the eye: mild irritant.

Adverse environmental effects:

On basis of test data. none

Other adverse effects:

The components in this formulation do not meet the criteria for classification as PBT or vPvB. Further remarks: SECTION 11: Toxicological information

SECTION 3: Composition / information on ingredients

3.2. Mixtures

Description:

Enzymes are defined as enzyme concentrate (dry matter basis).

Active enzymproteine (AEP): 20 - 30%

Hazardous ingredients / Hazardous impurities / Stabilisers:

product identifiers	Substance name Classification according to Regulation (EC) No 1272/2008 [CLP]	Concen- tration
CAS No.: 9032-08-0 EC No.: 232-877-2 REACH No.: 01-2119480439-28	Amylase, gluco- The substance is classified as not hazardous according to regulation (EC) No 1272/2008 [CLP]. Danger H334	30 – 50 weight-%

Full text of H- and EUH-phrases: see section 16.

SECTION 4: First aid measures

4.1. Description of first aid measures

General information:

Accidental release measures high concentrations

Following inhalation:

Effects: May produce an allergic reaction.

Symptoms: May cause allergy or asthma symptoms or breathing difficulties if inhaled. Cough Remove casualty to fresh air and keep warm and at rest. In case of allergic symptoms, especially in the breathing area, seek medical advice immediately.

In case of skin contact:

Effects: Frequently or prolonged contact with skin may cause dermal irritation.

Symptoms: mild irritant.

After contact with skin, wash immediately with plenty of water and soap. In case of skin irritation, consult a physician.

IF ON CLOTHING: Take off immediately all contaminated clothing. Wash contaminated clothing prior to re-use.

according to Regulation (EC) No. 1907/2006 (REACH)

Revision date: 4 Oct 2021 Print date: 4 Oct 2021 Version: 4

Panzym AG XXL

After eye contact:

Effects: Irritating to eyes. Symptoms: mild irritant.

In case of contact with eyes, rinse immediately with plenty of flowing water for 10 to 15 minutes holding eyelids apart. Subsequently consult an ophthalmologist. Remove contact lenses, if present and easy to do. Continue rinsing.

Following ingestion:

Effects: The following symptoms may occur: Gastrointestinal complaints, Nausea, Vomiting Symptoms: irritant.

Rinse mouth immediately and drink plenty of water. In case of accident or unwellness, seek medical advice immediately (show directions for use or safety data sheet if possible).

4.2. Most important symptoms and effects, both acute and delayed No data available

4.3. Indication of any immediate medical attention and special treatment needed Treat symptomatically.

SECTION 5: Firefighting measures

5.1. Extinguishing media

Suitable extinguishing media:

Carbon dioxide (CO2), Water mist., alcohol resistant foam, Dry extinguishing powder

Unsuitable extinguishing media:

none

5.2. Special hazards arising from the substance or mixture

May produce an allergic reaction.

5.3. Advice for firefighters

In case of fire: Wear self-contained breathing apparatus.

SECTION 6: Accidental release measures

6.1. Personal precautions, protective equipment and emergency procedures

6.1.1. For non-emergency personnel

Personal precautions:

See protective measures under point 7 and 8.

6.1.2. For emergency responders

No data available

6.2. Environmental precautions

No special environmental measures are necessary. Collect spillage.

6.3. Methods and material for containment and cleaning up

For cleaning up:

Conditions to avoid:generation/formation of aerosols. Generation/formation of dust Take up by mechanical means preferably by a vacuum cleaner equipped with a high efficiency filter. Flush remainder carefully with plenty of water. Avoid splashing and high pressure washing (avoid formation of aerosols).

Provide adequate ventilation.

6.4. Reference to other sections

No data available

according to Regulation (EC) No. 1907/2006 (REACH)

Revision date: 4 Oct 2021 Print date: 4 Oct 2021 Version: 4

Page 4/8

Panzym AG XXL

SECTION 7: Handling and storage

7.1. Precautions for safe handling

Protective measures

Advices on safe handling:

Conditions to avoid: generation/formation of aerosols. Generation/formation of dust Avoid breathing dust/fume/gas/mist/vapours/spray.

Provide adequate ventilation as well as local exhaustion at critical locations.

Liquid enzyme preparations are dustfree preparations. However, inappropriate handling may cause formation of dust or aerosols. for appropriate handling, see section 6 and 7. Inhalation of enzyme dust or aerosols resulting from handling may induce sensititazion and may cause allergic reactions in sensitized individuals. Prolonged skin contact may cause minor irritation.

Fire prevent measures:

No special fire protection measures are necessary.

7.2. Conditions for safe storage, including any incompatibilities

Requirements for storage rooms and vessels:

Keep container tightly closed in a cool, well-ventilated place.

storage temperature 0 - 10 °C

7.3. Specific end use(s)

Recommendation:

The product should be handled with the care usual when dealing with chemicals.

SECTION 8: Exposure controls/personal protection

8.1. Control parameters

No data available

8.2. Exposure controls

8.2.1. Appropriate engineering controls

Provide adequate ventilation as well as local exhaustion at critical locations.

8.2.2. Personal protection equipment

Eye/face protection:

Tightly sealed safety glasses.

Skin protection:

Thorough skin-cleansing after handling the product.

Hand protection: The selsection of suitable gloves not only depends on the material, but also on other quality characteristics. These may vary from manufacturer to manufacturer. Since the product is a preparation from several substances, the resistance of glove materials cannot be determined in advance and must therefore be checked prior to the application.

Suitable material: The glove material has to be impermeable and resistant to the product/the substance/ the preparation. Due to missing tests no recommendation to the glove material can be given for the product/the preparation/the chemical mixture. Selection of the glove material on consideration of the penetration times, rates of diffusion and the degradation.

Breakthrough time:: The exact break through time has to be found out by the manufacturer of the protective gloves nad has to be observed.

Respiratory protection:

If technical exhaust or ventilation measures are not possible or insufficient, respiratory protection must be worn.

Suitable respiratory protection apparatus: Particle filter device (DIN EN 143) P 3 See information supplied by the manufacturer.

Other protection measures:

Protective clothing: lab coat

General health and safety measures: The usual precautionary measures are to be adhered to when handling chemicals.

according to Regulation (EC) No. 1907/2006 (REACH)

Revision date: 4 Oct 2021 Print date: 4 Oct 2021 Version: 4

Page 5/8

Panzym AG XXL

8.2.3. Environmental exposure controls

No data available

8.3. Additional information

Human, inhalative, long term/repeated: DNEL/DMEL : 60 ng/m³

SECTION 9: Physical and chemical properties

9.1. Information on basic physical and chemical properties

Appearance

Physical state: Liquid **Odour:** slight fermentation odour Colour: brown

Safety relevant basis data

parameter		at °C	Method	Remark
рН	not determined			
Melting point	not determined			
Freezing point	not determined			
Initial boiling point and boiling range	not determined			
Decomposition temperature	not determined			
Flash point	not determined			
Evaporation rate	not determined			
Auto-ignition temperature	not determined			
Upper/lower flammability or explosive limits	not determined			
Vapour pressure	not determined			
Vapour density	not determined			
Density	1.15 g/ml			
Relative density	not determined			
Bulk density	not determined			
Water solubility	not determined			
Partition coefficient: n-octanol/ water	not determined			
Dynamic viscosity	not determined			
Kinematic viscosity	not determined			

9.2. Other information

Odour, ph Value, Boiling Point, Melting Point, Flash Point, Ignition temperature, Vapour pressure, Density and Solubility are not relevant to safety. For further information see the Product Specification and the Product Sheet for this preparation.

SECTION 10: Stability and reactivity

10.1. Reactivity

not relevant

10.2. Chemical stability

Substance is, under normal conditions, chemically stable.

10.3. Possibility of hazardous reactions

No data available

10.4. Conditions to avoid

none

10.5. Incompatible materials

none

according to Regulation (EC) No. 1907/2006 (REACH)

No data available

16.7. Additional information

The above information describes exclusively the safety requirements of the product and is based on our present-day knowledge. The information is intended to give you advice about the safe handling of the product named in this safety data sheet, for storage, processing, transport and disposal. The information cannot be transferred to other products. In the case of mixing the product with other products or in the case of processing, the information on this safety data sheet is not necessarily valid for the new made-up material.
