

## Accessories for bag filter housings

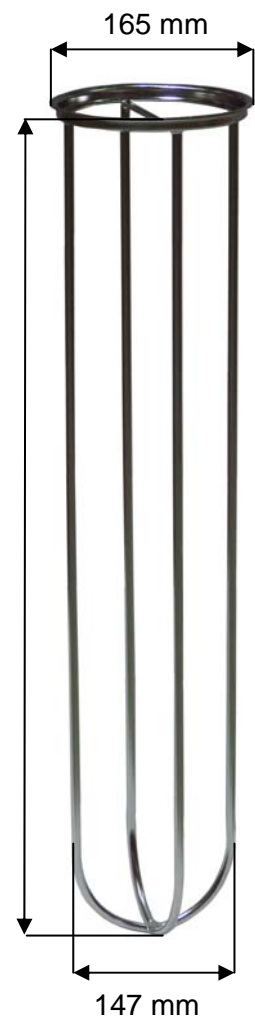

### Bag positioner

**BLK-SE-AC-01**  
**BLK-SE-AC-02**

Specification	
<b>Code number</b>	
BLK-SE-AC-01	F670184
BLK-SE-AC-02	F670185
<b>Technical data</b>	
Weight	kg
BLK-SE-AC-01	0.95
BLK-SE-AC-02	1.35
Length	mm
BLK-SE-AC-01	332
BLK-SE-AC-02	718
Surface treatment	Glass bead-blasted or electro-polished
<b>Materials of construction</b>	
BLK-SE-AC-01	Stainless steel 1.4571
BLK-SE-AC-02	Stainless steel 1.4571
<b>Packing</b>	
Dimensions (L x W x H)	mm
BLK-SE-AC-01	250 x 250 x 400
BLK-SE-AC-02	250 x 250 x 750

(Changes possible w/o notice)

Size 01 = 332 mm  
Size 02 = 718 mm

Bag positioners ensure correct positioning of the filter bag within the restrainer basket. Eliminates any “bobbing” up and down movement of the filter bag caused by uncontrolled back pressure. This avoids any chance of filter bag bursting. A special new collar design firmly fixes the element inside the filter bag during filtration.
