

Compass™

Modular desk system with
sit-to-stand features

Powering Business Worldwide

Compass desking system

Flexible, durable, and adjustable

Eaton's Compass modular desking system now includes a new sit-to-stand option. This height-adjustable workstation allows the freedom to sit or stand while working. The Compass sit-to-stand offers all the features of the classic Compass line, including a freestanding, steel-based design that exceeds industry requirements for strength and durability.

The system's modular design allows unlimited configuration possibilities to reflect the work styles of your people in open or private office settings. Compass is completely scalable and reconfigurable. And, its contemporary worksurface design with multiple finish and fabric options, ensures a high-end aesthetic appeal.

Ergonomics & comfort

Compass sit-to-stand options

Eaton understands the growing trend of flexible working hours and team workspaces. That's why the Compass system is built to provide comfort and ergonomics for employees that require flexible working solutions – such as sit-to-stand desks.

Ergonomics & comfort

- Designed for optimal ergonomic workspace
- Sit-to-stand desk integration options
- Stand-alone sit-to-stand desk options
- Electronic powered sit-to-stand feature with memory storage
- Ideal for shared and team workspaces
- Optional flat panel arms for ideal sight lines while standing or sitting
- A variety of ergonomic seating solutions

Travel range

The Compass sit-to-stand desks offer one of the largest travel ranges in the industry. This flexibility helps ensure the perfect worksurface location for any employee, regardless of height.

Freestanding desk travel range: 22.1" to 48.25"

Integrated desk travel range: 27.0" to 53.25"

Customizable & scalable

Open office environments

Eaton's Compass desk system is fully customizable and scalable to meet the unique needs of small to large office spaces without sacrificing style, comfort or durability.

- Open office designs
- Private office designs
- Filing and storage options
- Multiple metal, glass, laminate and fabric options
- Traditional to sleek, euro-style design options

Reception

Shelves can be added above the wall, serving as functional reception or display areas.

Maximize space

Mobile deskling unit allows for additional workspace and shared storage on both sides.

With unlimited design possibilities, the Compass system provides the perfect balance of privacy or employee interaction. Your Eaton representative will help you choose the right combination of walls, worksurfaces, storage solutions and accessories to create your high-performance workstation.

Customization

Frosted glass, rich laminates and contemporary leg styles, along with seating, are a few of the options available to fully customize your workstation.

Storage & filing

Overhead compartments are available with laminate, fabric or metal doors. *Flipper style door shown above.*

Customizable & scalable Private offices

Compass is equally suited for private office environments. Aesthetically and functionally adaptable, Compass can integrate into any room's architecture. With its variety of shapes and sizes, Compass optimizes your available workspace.

Technology integration

Eaton's Compass desk system is designed to easily integrate with technology in the workplace.

- Easy to access and manage cables, keeping them organized and hidden away
- Flat panel arms available to accommodate multiple monitors
- Electronic device to raise and lower desk from a sitting to standing position
- Worksurface height memory storage

Eaton offers a wide range of flat panel display (FPD) mounting solutions to lift monitors off the worksurface and provide easy fingertip adjustment. Shown here - our KONWL12D dual arm, dual monitor desk clamp.

The compact control pad is mounted under the worksurface for quick and easy height adjustments.

Keep cables protected and easily accessible with Compass's integrated cable management solutions.

Cable chain design helps manage cables safely during lift changes.

Filing & storage

Eaton's line of storage solutions save space and help increase productivity by optimizing access to critical media, materials and supplies. Ideal for personal storage or team workspaces, our storage solutions will integrate seamlessly into your environment.

Seating

Eaton offers a full line of ergonomic and contemporary seating, perfect for the office environment. From executive and task seating solutions to guest and conference seating, the wide range of designs and options integrate seamlessly in your workspace.

Optimedia™ storage systems, used in conjunction with Compass, offer limitless possibilities for both conventional filing and advanced multimedia storage.

Cable management

Cable pass-thru openings allow for easy technology integration. *Above shown without cover.*

Power

Compass's integrated power management solutions keep power products protected and easily accessible. Eaton's portfolio of ePDUs (*Power Distribution Units*), UPSs (*Uninterruptible Power Supply*), surge protectors and other power products ensure that your operation runs at peak performance
