

# Declaration of Product Content

Eaton Corporation  
W126N7250 Flint Drive  
Menomonee Falls, WI 53051  
USA

We, Eaton Corporation, provide this Manufacturer Declaration about Product Content, in particular, relative to customer inquiries about the compliance status of Eaton products regarding California's Proposition 65.

Eaton is fully committed to meet all regulatory requirements applicable to its products and carefully monitors listings under California's Proposition 65 of chemicals "known to the State" to cause cancer, birth defects or reproductive harm. It is Eaton's policy to design and manufacture environmentally conscious and safe products.

Regarding California's Proposition-65, Eaton has set up processes to evaluate whether any of the currently listed chemicals are contained in products supplied to customers and to provide such warnings, where appropriate. Those processes include requesting suppliers to provide information on materials and products that are supplied to Eaton.

As with most electric- and electronic components, some of Eaton's products might contain small amounts of substances listed under Proposition-65. However, Eaton has no knowledge that any of the currently listed chemicals contained in the products would result in human exposure at a level that would require a warning under Proposition 65, or if applicable, at a level above the established "safe harbor" level for that chemical (the "no observable effect level" for a chemical listed as a cancer-causing or the "maximum allowable dose level" for a chemical listed as causing reproductive toxicity).

Please note that changes may occur in the chemicals present in the products or in the information provided to Eaton by its suppliers regarding such products, upon which Eaton may elect to provide Proposition 65 warnings with respect to such products.

This declaration is based on information available to us and refers to the products listed below at the date of issue. As suppliers provide more information, and if necessary, we will provide an updated declaration. We make no express or implied representations or warranties with respect to the information contained herein.
