

# V-Series incandescent observation luminaire

Watertight

1L

## Applications:

The V-Series incandescent observation luminaire is used:

- In tanks or kettles where food is processed
- To light the inside of tanks for observation of the contents through a window

## Features:

- Watertight
- Supported by a mounting ring which contains holes for riveting when placed around a hole in the tank; it can also be welded or brazed to the tank
- Heavy heat- and impact-resistant glass globe eliminates breakage and resultant contamination of food from glass particles
- Relamping is easily accomplished by removal of the two thumb screws, which fasten the body to the mounting ring
- The flexible cord or cable should be connected by an EC flexible coupling or CG connector

## Certifications and compliances:

- UL standard: 1571
- CSA standard: C22.2

## Standard materials:

- Mounting ring – silicon bronze
- Fixture body – Feraloy iron alloy
- Globe – heat-resistant glass

## Standard finishes:

- Feraloy – electrogalvanized and aluminum acrylic paint
- Bronze – natural

## Size ranges:

- Up to 100W, A-21 lamp
