

Fire Alarm Circuit Breaker

Eaton is proud to announce the release of the Residential Products Division Fire Alarm Circuit Breaker family.

Multiple Applications:

- Provides clear permanent indication of fire alarm circuits in accordance to CEC, Part 1 requirement via "Red" handle.
- Available in Plug-on and Bolt-on configurations to meet your application.

Eaton Exclusive Product:

- The Fire Alarm Breaker family of products is available exclusively through your local Eaton Distributor.

Canadian Electric Code, Part 1

Section 32-108 (2)

"Overcurrent devices and disconnecting means for the separate circuit supplying a fire alarm system shall be clearly identified as the fire alarm power supply in a permanent conspicuous, and legible manner, and the disconnecting means shall be coloured red and lockable in the ON position."

Powering Business Worldwide

The Fire Alarm Circuit Breaker now provides your installation with a clean and professional look, without the use of marker or red tape.
