

Marina Power and Lighting

Wrangell Post-Mount Power Pedestal

Provide power in wet and harsh environments

Designed for marinas located in areas where active boating takes place during periods of heavy snow or flooding, the Wrangell Post-Mount Power Pedestal is also ideal for marinas with limited dock space. Post mounting protects electrical equipment from snow plows and service carts, while the rugged NEMA 3RX enclosure withstands moisture, dirt ingress and corrosion.

Benefits

- **Post-mount design** enables maximum dock space availability and accessibility during flooding and snowfall
- **Specialized metering** operates in subzero temperatures
- **Corrosion-resistant housing** meets IEEE® C57.12.29 and enhances marina appearance

Recommended boat sizes

Sailboats
80+ feet

Mixed boats
80+ feet

Power boats
Up to 250 feet

Standard features

General

- NEMA Type 3RX enclosure made from 316L stainless steel
- Accepts utility-grade meters (5- or 7-jaw)
- Wireless metering and control options
- UL® Listed for safe shore power

Power configurations

- Standard 30 and 50 A twist-and-lock receptacles provide maximum strain relief
- 30 and 50 A breakers with ground fault protection available
- 60 and 100 A pin-and-sleeve receptacle options available
- Ground fault relays provide protection for 60 and 100 A receptacles

Versatile design

- Custom-engineered configurations available
- Paint options to match any dock or marina aesthetic
- Front and side mounting options
- Square or round pole mounting options
