

Marina Power and Lighting

Hatteras Light® Power Pedestal

See why less is more for smaller docks

The Hatteras Light is perfect for providing shore power connections to residential boaters or docks with limited space. This pedestal has features similar to our Lighthouse™ power pedestal but in a smaller, more compact design. With power options up to 50 A, the Hatteras Light is the perfect addition to your residential dock.

Benefits

- **Compact, 30-inch height** is ideal for smaller craft docks, walkway lighting, decks and pools
- **Modular base-mount bracket assembly** enables easy installation
- **Polyurethane-coated flip covers** provide same-side access to breaker and receptacle

Recommended boat sizes

Sailboats
Up to 60 feet

Mixed boats
Up to 50 feet

Power boats
Up to 45 feet
