

Regional manufacturing solutions

Made in Los Angeles

LOCAL PRESENCE

Eaton has 16 regional manufacturing and assembly satellite facilities across the United States. Each site provides extensive support and knowledge of its local market providing standard and customized solutions to meet specific customer needs.

GLOBAL PERSPECTIVE

Every day, all around the world, people depend on technology, transportation, energy and infrastructure to live and work. Our technologies and services form the backbone of safe, reliable electricity supply and play a key role in our infrastructure. With rapid growth in electrification, an energy transition driven by climate change and explosive growth in connectivity, Eaton is well positioned to solve the world's toughest electrical power management challenges.

Rapid support

- Solutions for minimized downtime
- 24/7 emergency service
- Same-day product turnaround
- Industry-leading delivery with superior quality
- Local customer pickup available

Proven expertise

- Local engineering know-how for panelboards, switchboards and enclosed breakers
- Application engineering and design support
- On-board customer approvals and inspections

Customized solutions

- Main-tie-main switchboards
- Microgrid / contactor application switchboards
- Stainless steel switchboards

- Custom paint (including salt spray)
- NEMA 3R available options
 - NEMA 3R drip loop assembly
 - NEMA 3R double door
 - NEMA 3R bolt-on cover
 - NEMA 3R 180° door swing
- 2 & 3 (N-frame PD5) individually mount breakers in single section
- UL 1773 termination box
- "Instant" switchboards
- Solar switchboards (with AFGF functionality up to 4000A BPS)

Industry-leading power management solutions in your backyard

Located in nearby Fontana, our 50,000-square foot Los Angeles satellite has been manufacturing electrical products for the region for decades.

Power distribution

- Panelboards through 1200 A
- Switchboards through 6000 A
- Integrated Facility Systems™ (IFS)
- Generator quick-connect switchboards
- ATS switchboards
- Enclosed breakers
- Solar panel switchboards
- Solar visible disconnects

- N3R stainless steel switchboards
- 600 VDC switchboards
- Submetering switchboards
- Weights & Measures-certified panels with PXBCM and PXMP products

Panelboard and Switchboard aftermarket products

- Switchboard connector kits and breakers
- Panelboard connector kits and breakers

Made in Los Angeles We specialize in custom solutions

Eaton can work directly with your engineers on power solutions for your microgrid and other custom applications that meet local utility design specifications. From an integrated ATS to a Main-Tie-Main scheme with Visual Open Utility Disconnect, Eaton specializes in manufacturing switchboards for your specific needs.
