## Panelboards and switchboards

Built at the intersection of experience and **intelligence**.

What do you get when you combine over 90 years of experience with industry-first power innovations? Intelligent circuit protection for panelboards and switchboards that can provide accurate, actionable data to increase efficiency. Built on a foundation of excellence, the feature-rich Pow-R-Line Xpert™ family with Eaton's new Power Defense™ circuit breakers includes built-in communications, energy metering and breaker health diagnostics for safer, more reliable systems.

### Features and benefits

#### PREDICTIVE

##### Breaker health diagnostics

Monitors and communicates breaker health status, enabling predictive maintenance to avoid costly, unscheduled downtime

#### CONNECTED

##### Embedded communications

Helps to reduce cost by eliminating the need for separate communication components and associated wiring

#### CLEAR VISION

##### Re-engineered deadfront covers

Offers full visibility to breaker faceplate as well as accessibility to trip units without having to remove deadfront cover

#### ADAPTABLE

##### Thru-cover accessories

Easily removable secondary covers designed to install a wide range of accessories in field without voiding factory warranty

#### PREPARED

##### Standardizing Arcflash Reduction Maintenance System™ (ARMS) functionality

Enhanced and consistent functionality of industry-leading solution to reduce arc flash energy released during maintenance operations

#### EFFICIENT

##### PXPM testing and configuration

PXR trip units equipped with micro-USB connection for secondary injection testing through your PC, saving you labor hours and the cost of expensive test kits

#### INSIGHTFUL

##### Integrated metering capabilities

Simplifies installation by current and voltage metering internal to trip unit with no need for external modules

Panelboards and switchboards are used to safely and efficiently distribute power in data centers, healthcare applications, commercial buildings, institutions and much more.

# Pow-R-Line Xpert family classification

## PRL1X

### Maximum voltage

240 Vac

### Maximum amperage

600 A main  
100 A branch  
400 A subfeed

### Standard provisions

Yes—specified by number of circuits

### Product type

Panelboard

### Features

- Power Defense molded case circuit breakers
- EZ™ Box and EZ™ Trim standard
- Surge options are available up to 200 kA
- Chassis accepts miniature circuit breaker types BAB and QB
- Integral customer metering options are available

**The bottom line:** The PRL1X is designed for 240 Vac and below lighting and appliance applications.

## PRL2X

### Maximum voltage

480Y/277 Vac  
125/250 Vdc 3 W

### Maximum amperage

600 A main  
100 A branch  
400 A subfeed

### Standard provisions

Yes—specified by number of circuits

### Product type

Panelboard

### Features

- Power Defense molded case circuit breakers
- EZ Box and EZ Trim standard
- Surge options are available up to 200 kA
- Chassis accepts miniature circuit breaker types BAB and QB
- Integral customer metering options are available

**The bottom line:** The PRL2X is designed for low AIC 480Y/277 Vac, lighting and appliance applications or high AIC 120/208 Vac applications.

## PRL3X

### Maximum voltage

600 Vac  
250 Vdc 2 W

### Maximum amperage

600 A main, 800 A MLO  
225 A branch  
400 A subfeed

### Standard provisions

No—must be manually added

### Product type

Panelboard

### Features

- Standard chassis accepts Power Defense molded case circuit breakers
- Can include 1X or 2X sub-chassis for miniature circuit breakers
- EZ Box and EZ Trim standard
- Surge options are available up to 200 kA
- Integral customer metering options are available

**The bottom line:** The PRL3X is a hybrid lighting and power panel for lighting/appliance and small power distribution and motor applications.

## PRL4X

### Maximum voltage

600 Vac  
600 Vdc 2 W

### Maximum amperage

1200 A main  
1200 A branch

### Standard provisions

No—must be manually added

### Product type

Panelboard

### Features

- Standard chassis accepts Power Defense molded case circuit breakers
- Can include 1X or 2X sub-chassis for miniature circuit breakers
- BX type can, DFC only standard
- Complete line of Power Xpert metering options are available
- GFCI on the main circuit breaker is available
- Surge options are available up to 400 kA with integral breaker

**The bottom line:** The PRL4X is designed for 1200 A and below, service entrance, power distribution and motor applications.

## PRLX

### Maximum voltage

600 Vac  
600 Vdc 2 W

### Maximum amperage

6000 A main bus

### Standard provisions

No—must be manually added

### Product type

Switchboard

### Features

- Includes Power Defense molded case circuit breakers
- Front or rear accessible
- Utility metering provisions available
- Complete line of Power Xpert metering options are available
- Surge options are available up to 400 kA with integral breaker
- 65 kAIC standard bus bracing; optional 100 or 200 kAIC

**The bottom line:** The PRLX combines a space-saving design with modular construction and increased systems ratings.

## PRLXD

### Maximum voltage

480 Vac

### Maximum amperage

2000–6000 A rated bus

### Standard provisions

No—must be manually added

### Product type

Switchboard

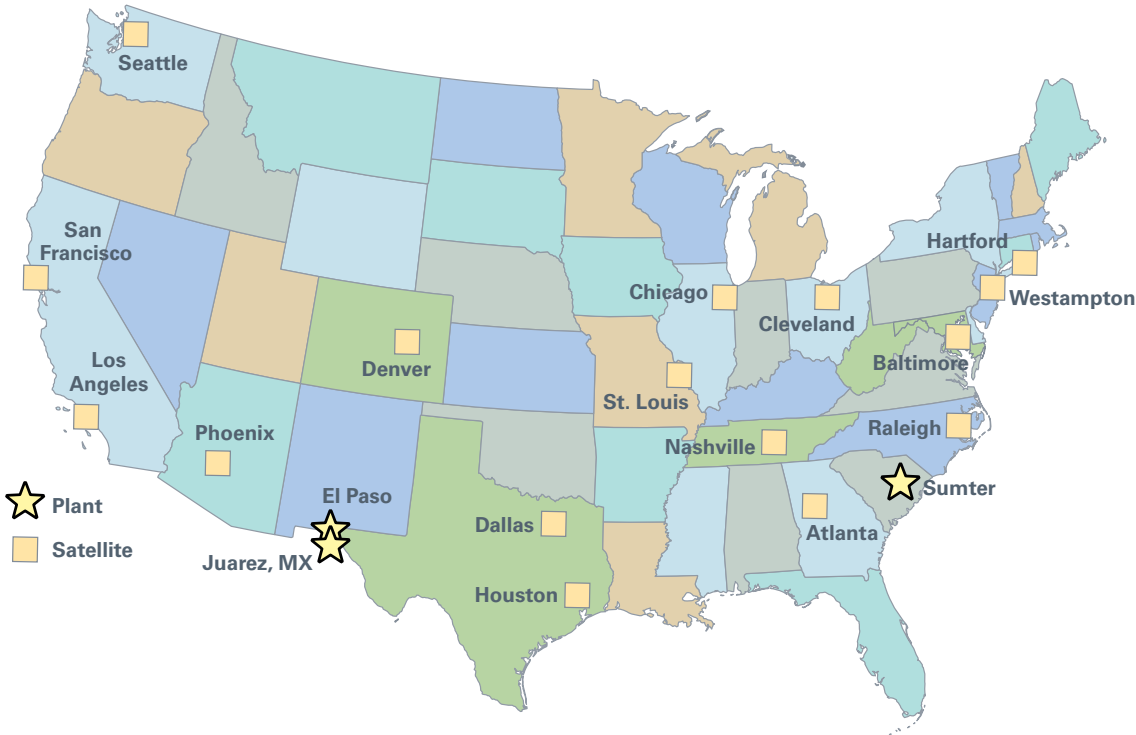

### Features

- Can accommodate the following in a single UL 891 assembly:
  - 400–4000 A drawout insulated case circuit breakers
  - 70–600 A drawout molded case circuit breakers
  - 20–1200 A fixed group-mounted molded case circuit breakers
- Includes Eaton's Power Defense circuit breaker offering

**The bottom line:** The PRLXD is a reliable solution that integrates both drawout insulated case and molded case circuit breakers into a single UL® 891 assembly.

Check out our local manufacturing presence to meet your specific needs

Eaton Pow-R-Line panelboards and switchboards are built to your requirements at our world-class manufacturing plants in Sumter, SC, El Paso, TX, and Juarez, Mexico. In addition, Eaton has 16 regional satellite facilities located across the country to meet your panelboard and switchboard service needs.
