ELST Fuse to ELSG Fuse Cross Reference

ELST Catalog Number	ELST Item Number	ELST "E" Rating	ELST Continuous Current (A)	ELSG Catalog Number	ELSG "E" Rating	ELSG Continuous Current (A)
3437851B04M	83ELST20	20	25	3594020M83M	20	34
3437851B05M	83ELST30	30	35	3594030M83M	30	46
3437851B06M	83ELST50	50	55	3594050M83M	50	65
3437851B07M	83ELST75	75	82	3594065M83M	65	92
3437851B03M	83ELST100	100	112	3594080M83M	80	106
3437851B02M	83ELST150	150	165	3594120M83M	120	150
3437851B01M	83ELST200	200	220	3594150M83M	150	200

NOTES:

- 1 The ELST fuse is not electrically interchangeable with the ELSG fuse. Please refer to the ELSG catalog section (240-82) for more detailed information and the appropriate TCC curve (R240-91-85) for coordination verification.
- 2 The fuses are mechanically interchangeable and, therefore, mounted in the same 15kV wetwell holder.
