

Eaton surge protective devices

Complete home surge protection

What is a surge? Why do you need protection?

A surge is an electrical disturbance that travels through your AC power, telephone, and cable lines, potentially damaging home electronics and appliances.

Where do surges typically come from?

Lightning, utility disturbances, and home appliances turning on/off.

Surge application per 2020 NEC® 230.67:

- A surge protective device (SPD) shall be installed in all new and replacement services supplying dwelling units
- Shall be a Type 1 or Type 2 SPD
- Shall be attached to the service equipment or immediately adjacent (refer to NEC® 230.67 for exceptions)
