

Having trouble finding the right dimmer?

# Eaton Smart LED dimmer

## A truly effective alternative to traditional dimmers

No flickering

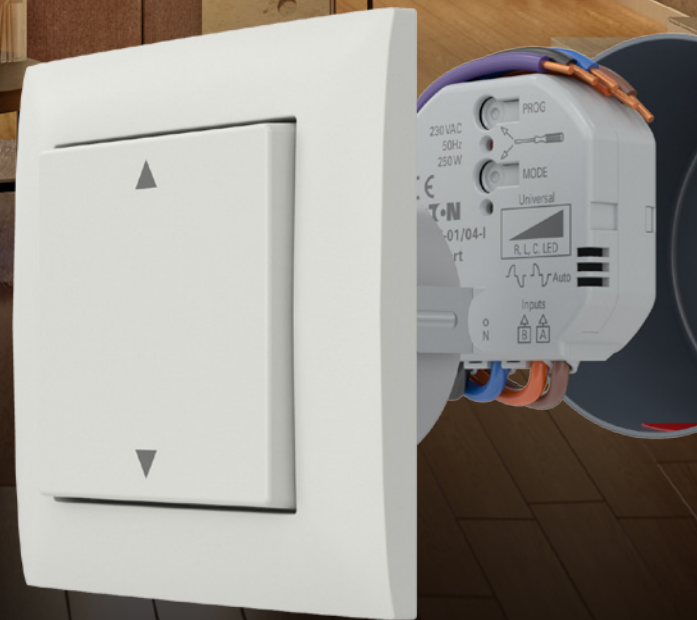

No LED glow

No noise

- For all dimmable light bulbs
- Dims even the smallest load
- Automatic phase cut (leading / trailing edge)
- Uses maximum dimming range
- 100% dimming smoothness
- Protected against short circuit, over load and overheating (auto recovery)
- 6 preprogrammed DIM profiles
- Compatible with all pushbutton brands
- Easy installation & commissioning
- Extendable with wireless switches

# EATON

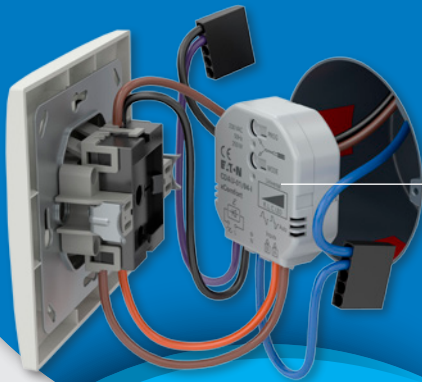

Powering Business Worldwide

# A Smart Home in just three simple steps

## Step 1

Install dimmers behind mechanical push buttons from a brand of choice

- Easy installation, retrofitted or in new builds

Your Smart Home starts with Eaton Smart Dimmers

## Step 2

Add wireless switches

- Control lights from multiple wireless switches, saving time and increasing flexibility
- Additionally control multiple lights from a single switch (e.g. light up an entire room with the push of a button)

CPAD- 00/193  
Artnr: 173411

*Just place them where ever you need them, no installation required*

## Step 3

Add additional functions

- Automatically switch lights On and Off when you are not at home (presence simulation)
- Control your home with switches and your Smart device
- Create & activate your preferred light scenes with the App
- Monitor & Control your home from anywhere using the App

CHCA- 00/01  
Artnr: 171230

*Control your lights manually, automatically or with your smart phone*

Enhance your **peace of mind, energy savings and lifestyle** by further extending the system with **xComfort** at your own pace.
