

From car park to rooftop

One look, Hundreds of solutions

Powering Business Worldwide

Emergency Lighting you can rely on

One look, one product family,
meet hundreds of projects requirements

One look and one product family for hundreds of solutions

In an emergency, exit signage and safety lighting is vital to guide a building's occupants to safety.

Yet a project may have different requirements for signage and safety lighting. Eaton's FlexiTech ED and SE – including EW and EC exit signs for walls and ceilings plus SU safety lights with uniform illumination – bring new opportunities for emergency lighting designers and installers in diverse settings by eliminating complexity and saving time.

Whatever the project, FlexiTech can offer multiple options. FlexiTech SU is an innovative safety light. FlexiTech EW exist in 3 sizes, and EC in 2 sizes to meet your exit signage requirements.

CG-S and CGLine+ variants bring you even more peace of mind, making monitoring and visualization of the system easier and evacuation safer thanks to new Increased Affordance functionality (CGLine+).

With FlexiTech consistent range, exacting requirements quickly and efficiently has never been so easy

Exit sign - FlexiTech EW
(Exit sign **W**all mounting)

12m, 20m, 30m viewing distance
IP43 / IP66
Self-contained or
Centrally powered luminaire

Safety light - FlexiTech SU
(Safety light with **U**niform illumination)

Small and Large
IP43 / IP66
Self-contained or
Centrally powered luminaire

Exit sign - FlexiTech EC
(Exit Sign **C**eiling mounting)

20m, 30m viewing distance
IP43 / IP65
Self-contained or
Centrally powered luminaire

FlexiTech first fix baseplate

- Baseplate is **fixed to the support** and used for electrical connections.
- The luminaire **snaps onto it**
- Baseplate can be installed **very early** in the construction phase.
- Luminaire **can be clipped at the end of the project** to **prevent risk of damage** (shock, paint, repetitive mains failure, stealing ...).
- Luminaire can be **easily unclipped to check configuration and wiring**.

7 innovations that make FlexiTech easier to install

Slotted holes for quick fixing and easy adjustment

Screwless terminal blocks with double connection

9 cables entries in rubber
(4 at the back, 2 at the top, 1 at the bottom and 2 at the side)
Cables :
6 <math>< \varnothing < 13,5\text{mm}</math>
No plastic parts to break when accessing from the back

Possibility of direct mounting on electrical boxes ($\varnothing 67\text{ mm}$)

Spirit level for perfect horizontal alignment

Transparent baseplate with a large working space for easy installation and replacement of existing products

IP66 version only
Easy and fast installation without cable glands
Same look as the IP43 version

Entries made of a special thermoplastic elastomer with specific compound developed by automotive industry

Cable entries on sides have an innovative design with 2 membranes:

- The outside membrane protects against water jet pressure
- The inner membrane perfectly surrounds the cable for enhanced sealing

5 features supporting easy maintenance

1. Easy separation of the transparent baseplate from the housing

2. Maximum accessibility of components makes easier replacement of battery pack

3. Honeycomb footprint zones enable easy reuse of existing fixing holes

4. EATON magnet can be used to :

- Carry out manual tests
- Configure the lighting level in mains mode (30% / 70% / 100%)

5. Renovation plate

Coloured accessories for better integration

Keeping your system operational Limiting operation and maintenance costs

The use of LEDs, automatic testing and individual monitoring devices (on CGLine+ versions) significantly reduces the operating and maintenance costs of the installation.

- Blocking mode and rest mode to keep battery fully loaded during site works or when the building is vacant.
- Compatible with VisionGuard visualization software
- Can be added to current BMS connection solutions

VisionGuard
visualization software

A product made to last

- Robust construction (**IK07**), **high plastic quality** and **rubber fixing point** (to absorb shock energy) make FlexiTech **resistant to shocks** which might be caused by people
- Rubber and TPE components **close all possible space between parts**, minimising bug and dust penetration into the housing
- Latest generation of LEDs, **good heat dissipation**, and **efficient use of power**. CGLine+ variants are designed to offer **10 years lifespan** - proven via 1 year aging test @70°C ambient temperature
- Exit signs inlay legends are **well protected against scratches and dirt**

Protecting lives and the environment

- Reduced impact on the environment throughout its lifecycle (design, manufacture, use, recycling)
- Conformity with REACH and ROHS
- Batteries without cadmium
- Latest generation of high-performance LEDs / Low power consumption
- Brightness in mains mode can be also adjusted (30% / 70% / 100%) on CGLine+ variants
- Use in Maintained and Non-Maintained mode (self-contained)
- Monitored solutions (CG-S and CGLine+) enable system switch off when the business is idle, saving on energy costs

FlexiTech - Exit Sign

FlexiTech EW Exit sign Wall mounted

Single sided
12m, 20m, 30m viewing
distance versions

- Centrally powered and self-contained
- Unobtrusive appearance, slim housing (34 to 38mm)
- Robust construction, IK07

FlexiTech EC Exit sign Ceiling mounted

Single or double-sided
20m and 30m viewing
distance versions

- IP43 and waterproof versions
- Delivered with exit legends
- First fix baseplate

Harmonious integration into the building

• **One look for all variants** thanks to double membrane technology. IP43 and waterproof versions have same look and dimensions

• **Unobtrusive design and slim housing** make the luminaires **very discreet** in the architecture thanks to light guide technology. Their thickness has been optimized (34 to 38mm)

• **Harmonious appearance** building-wide (from the car park to the roof top)

• **Same high quality of illumination** on all exit signs, whatever the size, throughout the building.

Saving time for what matters

• Delivered with non-adhesive exit legends for **most of existing configurations**

• List of **main accessories** displayed on carton box

• Self-contained luminaires enable **easy duration configuration** (one to eight hours)

• Possibility to **configure the lighting level** in mains mode with Self-Contained luminaires (CGLine+ versions)

Suspension kit 150cm + FlexiTech EC 30m

Wall bracket 20m + FlexiTech EC 20m

Wall bracket 30m + FlexiTech EC 30m

Suspension kit

- Available in 50 or 150 cm
- Compatible with FlexiTech EC 20 or 30m versions
- Coloured options available

Wall bracket

- Compatible with FlexiTech EC 20 or 30m versions
- Coloured options available

Custom designed pictograms

Unmissable exit signs...

... thanks to Increased Affordance

Increased Affordance function (IA) available on CGLine+ versions, makes exit signs more recognizable when evacuation is needed, even in a very brightly lit environment.

In mains operation, **uniform illumination** of the pictograms facilitates the identification of emergency exits.

An evacuation order (fire, danger or climatic risk) triggers the **Increased Affordance** function which enables better recognition of the escape route through blinking or pulsing.

In case of power failure, the pictograms are perfectly legible **without risk of glare** for users.

... for safer evacuation

Without IA

Risk of congestion at entry points of the building.

Difficult for those with impaired hearing who may not hear any accompanying vocal instructions.

With IA

The animation of the safety pictograms (blinking) facilitates the identification of ALL available escape routes and exits.

FlexiTech EW CGLine+ - Datasheet

FlexiTech EW 30m/20m/12m viewing distance

IP66 version

Easy and fast installation without cable glands
Same look as the IP43 version

Entries made of a special thermoplastic elastomer with specific compound developed by automotive industry
Cable entries on sides have an innovative design with 2 membranes:

- The outside membrane protects against water jet pressure
- The inner membrane perfectly surrounds the cable for enhanced sealing

Dimensions (mm)

FlexiTech EW CGLine+

- Self-contained luminaire with Automatic Test and individual monitoring (CGLine+) for reduced inspection effort
- Single sided exit sign with light guide technology for wall mounting
- Robust construction IK07 for reliable operation even in difficult environments
- Available with 12, 20 and 30m viewing distance and protection degrees IP43 and IP66
- Non-obtrusive design and with a slim housing (34 / 38 mm)
- Including inlay legends for commonly used configurations reducing the logistic effort to have the right pictograms on site
- The inlay legends are well protected against scratches and dirt
- Increased affordance functionality for better visibility of the exit sign and faster evacuation
- Optimal recognition via high luminance of white contrast colour $> 500 \text{ cd/m}^2$ according to DIN4844-1 / ISO 3864-1 (for bright surroundings), and perfect uniformity $L_{\min}/L_{\max} > 0.8$
- Brightness selectable in two steps in mains operation (eg. theater: 50 cd/m^2 , Supermarket: 500 cd/m^2) and additional setting (30%, 70%, 100%)
- Selectable operating time (1/2/3/8h operation)
- Selectable operation mode (Maintained or Non-Maintained) via switch input
- Fast installation and effortless wiring thanks to: cable entries in rubber, large space for cabling, screwless terminal blocks, integrated spirit level and first fixed base plate to snap on the housing without any tool
- Transparent base plate with honeycomb footprint for easy replacement of existing products (IP4x use only)
- Low eco-footprint thanks to its eco-designed, low consumption and Lithium battery
- Simple fault analysis and status display via bicolor LED, testing button (magnet) and supervision solutions
- Lifespan: 10 years without component replacement, proven with 1 year aging test @70°C ambient temperature
- Complete range of accessories (recess kit, wire guard)
- Coloured accessories available on demand, custom designed pictograms also available

Pictogram	
Viewing distance	12m, 20m or 30m
Included labels	4 Non-adhesive Exit legends (D,U,R,L) ISO format
Luminous flux Φ_e/Φ_N at end of rated operating time	100% @ 1h, 50% @ 2h, 30% @ 3h, 16% @ 8h
Illumination in mains mode	50 or 500 cd setting via switch, and possible additional setting via magnet (30%, 70%, 100%)
Operation	Maintained / Non-Maintained (via switch input)
Duration	Configurable 1/2/3/8 hours
Testing system	Automatic Test in compliance with EN 62034 Connection possible to the CGLine+ monitoring system
Housing	
Type of mounting	Wall surface-mounting
Material	Polycarbonate
Colour	White RAL9003

	FT2ECCC-TSK-50*	Tube Suspension Kit 50cm for FlexiTech EC&CC, IP43	FT2ECCC-TSK-50-B	FT2ECCC-TSK-50-DG	FT2ECCC-TSK-50-S
	FT3ECCC-TSK-150*	Tube Suspension Kit 150cm for FlexiTech EC&CC, IP43	FT3ECCC-TSK-150-B	FT3ECCC-TSK-150-DG	FT3ECCC-TSK-150-S
	FT2ECCC-WB*	Wall Bracket for FlexiTech EC&CC, 20m, IP43	FT2ECCC-WB-B	FT2ECCC-WB-DG	FT2ECCC-WB-S
	FT3ECCC-WB*	Wall Bracket for FlexiTech EC&CC, 30m, IP43	FT3ECCC-WB-B	FT3ECCC-WB-DG	FT3ECCC-WB-S
		Metal cover for FlexiTech EC&CC, 20m	FT2EC-MC-B	FT2EC-MC-DG	FT2EC-MC-S
		Metal cover for FlexiTech EC&CC, 30m	FT3EC-MC-B	FT3EC-MC-DG	FT3EC-MC-S
	E-WIRINGSET-IP	Wiring Set IP65, SC & CPS luminaires			
*To ensure IP65 protection rate, use waterproof connection kit: E-WIRINGSET-IP This set is composed of terminal blocks for one luminaire (SC or CPS), offering in and out wiring possibility.					
	FTECCC-CF	Chain fastening for FlexiTech EC&CC			
	FT1SU-RP	Renovation Plate for FlexiTech EC			
	EMN	Eaton Magnet for configuration and tests			
	FT-BATLL2	Battery LiFePO4 long life, 3,2V / 1500mAh			
	FT2-4I	Set of 4 pictos for FlexiTech EC, 20m (D, L, R, U), ISO format			
	FT3-4I	Set of 4 pictos for FlexiTech EC, 30m (D, L, R, U), ISO format

FlexiTech SU Safety light with Uniform illumination

Small and Large viewing distance versions

- Centrally powered and self-contained
- Unobtrusive appearance, slim housing (34 to 38mm)
- Robust construction, IK07
- IP43 and IP66
- Universal light distribution (escape route and anti panic)
- Light guide with micro lenses to avoid glare effect
- First fix baseplate

Harmonious integration into the building

• **One look for all variants** thanks to double membrane technology. IP43 and waterproof versions have same look and dimensions

• **Unobtrusive design and slim housing** make the luminaires **very discreet** in the architecture thanks to light guide technology. Their thickness has been optimized (34 to 38mm)

• **Harmonious appearance** building-wide (from the car park to the roof top)

• **Same high quality of illumination** on all safety luminaires, whatever the size, throughout the building.

Efficient spacing, escape route or open area illumination

- FlexiTech SU **fits most configurations you will require**
- FlexiTech makes **the lighting study, product selection and project planning easier.**

Escape route

Open area

• **Light distribution is optimized for most applications:**

- Efficient spacing
- Suitable for escape route illumination and open areas
- Suitable from low height of installation up to 8 meters

Powerful light output even in a compact housing

- Thanks to **the light guide's micro lenses**, the flux is distributed over **the entire surface to avoid glare effect**
- Same SC luminaires **offer different flux values depending on the duration configured**
- Ceiling mounted or wall mounted **without any glare effect**
- Same self-contained luminaires **can cover different applications**, for example special areas in the building requiring long duration
- **Easy** product selection

FlexiTech SU CGLine+ - Datasheet

FlexiTech SU CGLine+

- Self-contained luminaire with Automatic Test and individual monitoring (CGLine+) for reduced inspection effort
- Innovative precise micro lenses guide light efficiently along the escape route while thanks to the large light output area the glare is significantly reduced, especially suitable in applications like night light
- Universal light distribution equally suitable for escape route and open area lighting for mounting heights from 2.5 to 8m (420 lm version, 1 hour duration)
- Up to 420 lm in a very compact luminaire
- Robust construction IK07 for reliable operation even in difficult environments
- Available with protection degrees IP43 and IP66
- Light output selectable in two steps in mains operation (eg. theater: 10 lm, supermarket: 100 lm) and additional setting (30%, 70%, 100%)
- Selectable operating time (1/1,5/2/3h operation)
- Selectable operation mode (Maintained or Non-Maintained) via switch input
- Fast installation and effortless wiring thanks to: cable entries in rubber, large space for cabling, screwless terminal blocks, integrated spirit level and first fixed base plate to snap on the housing without any tool
- Transparent base plate with honeycomb footprint for easy replacement of existing products (IP4x use only)
- Low eco footprint thanks to its eco-design, low consumption and Lithium battery
- Lifespan: 10 years without component replacement, proven with 1 year aging test @ 70°C ambient temperature
- Simple fault analysis and status display via bicolor LED, testing button (magnet) and supervision solutions
- Complete range of accessories available (recessed kit, recessed box for plaster and brick wall, wire guard)
- Coloured accessories available on demand

FlexiTech SU - Small

IP66 version

Easy and fast installation without cable glands
Same look as the IP43 version

Entries made of a special thermoplastic elastomer with specific compound developed by automotive industry
Cable entries on sides have an innovative design with 2 membranes:

- The outside membrane protects against water jet pressure
- The inner membrane perfectly surrounds the cable for enhanced sealing

▲ Cable entries ● Fixing points

Dimensions (mm)

Luminous flux Φ_E/Φ_N at end of rated operating time	FT1SU250 versions : 100% @ 1h, 60% @ 1.5h, 50% @ 2h, 32% @ 3h FT1SU400 versions : 100% @ 1h, 69% @ 1.5h, 54% @ 2h, 33% @ 3h
Illumination in mains mode	10 or 100lm setting via switch, and possible additional setting via magnet (30%, 70%, 100%)
Operation	Maintained / Non-Maintained (via switch input)
Testing system	Automatic Test in compliance with EN 62034 Connection possible to the CGLine+ monitoring system
Housing	
Type of mounting	Surface-mounting
Material	Polycarbonate
Colour	White RAL9003
Degree of protection	IP43 & IP66 / IK07
Terminals	Screwless terminals for flexible and rigid wires From 0,5 to 2,5 mm ²
Connection voltage	220 - 240 V AC, 50/60 Hz
Permissible ambient temperature	5°C to 45°C, 0°C to 45°C in maintained mode. 35°C max for 10 years lifetime.
Battery	LiFePO4
Light source	LED, 6 500 K, CRI ≥70, Lifespan 100 000h
Dimensions	Small: 231 x 86 x 34 mm
Insulation Class	II

FlexiTech SU CG-S - Datasheet

FlexiTech SU - Small/Large

IP66 version

Easy and fast installation without cable glands
Same look as the IP43 version

Entries made of a special thermoplastic elastomer with specific compound developed by automotive industry

Cable entries on sides have an innovative design with 2 membranes:

- The outside membrane protects against water jet pressure
- The inner membrane perfectly surrounds the cable for enhanced sealing

FlexiTech SU CG-S

- Safety luminaire with light guide technology for surface or optional recessed mounting
- Innovative precise micro lenses guide light efficiently along the escape route while thanks to the large light output area the glare is significantly reduced, especially suitable in applications like night light
- Universal light distribution equally suitable for escape route and open area lighting for mounting heights up to 7.5 m
- Robust construction IK07 for reliable operation even in difficult environments
- Fast installation and effortless wiring thanks to: cable entries in rubber, large space for cabling, screwless terminal blocks, integrated spirit level and first fixed base plate to snap on the housing without any tool
- Transparent base plate with honeycomb footprint for easy replacement of existing products (IP4x use only)
- Reduced installation expenditures by STAR technology
- Shortened inspection effort due to CEWA GUARD technology
- Automatic function monitoring of up to 20 luminaires per circuit
- Freely programmable mixed operation of the switching modes per luminaire in one circuit
- Minimum service requirement due to high service life of the LEDs
- Complete range of accessories available (recessed kit, recessed box for plaster and brick wall, wire guard)
- Coloured accessories available on demand

Luminous flux Φ_N	420 lm
Luminous flux Φ_e/Φ_N at the end of rated operating time	100%
Housing material	Polycarbonate
Weight	FT1SU400CGS, FT1SU400CGSIP: 0.31 kg FT3SU400CGS: 0.81 kg

Notes

A series of horizontal dotted lines for writing notes.

A series of horizontal dotted lines spanning the width of the page, intended for taking notes.

Eaton's mission is to improve the quality of life and the environment through the use of power management technologies and services. We provide sustainable solutions that help our customers effectively manage electrical, hydraulic, and mechanical power – more safely, more efficiently, and more reliably. Eaton's 2020 revenues were \$17.9 billion, and we sell products to customers in more than 175 countries. We have approximately 92,000 employees.

For more information, visit **Eaton.com**.

Changes to the products, to the information contained in this document, and to prices are reserved; so are errors and omissions. Only order confirmations and technical documentation by Eaton is binding. Photos and pictures also do not warrant a specific layout or functionality. Their use in whatever form is subject to prior approval by Eaton. The same applies to Trademarks (especially Eaton, Moeller, Cutler-Hammer and CEAG). The Terms and Conditions of Eaton apply, as referenced on Eaton Internet pages and Eaton order confirmations.
