

6.1

Exit signs - High degree of protection

Euro X LED

6

- Universal use: For wall and ceiling mounting
- Protection class IP54
- Including pictogram set
- Environmentally-friendly lithium ion battery
- Automatic test functions
- LEDs with high service life

Light Source:

5 × LED

The Euro X LED has been developed to meet a wide spectrum of requirements, with no compromises to quality or functionality despite the diversity of product features. It is universally suitable for wall and ceiling mounting without the need of an accessory.

Materials:

Polycarbonate body and diffuser
Lithium ion battery

The luminaire features a high IP54 protection rating. Easy installation of this product is due to optimized cable entries and plug-in connectors.

Installation:

Wall mounting, ceiling mounting

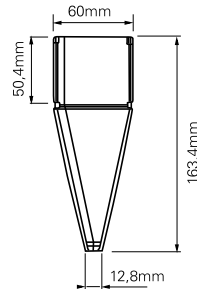

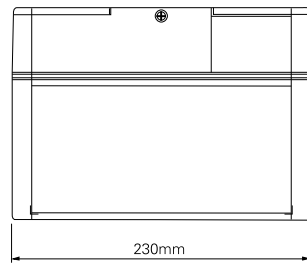

Euro X LED is equipped with long life components (Li-Ion battery and LED light source) as well as automatic testing technology.

Operation:

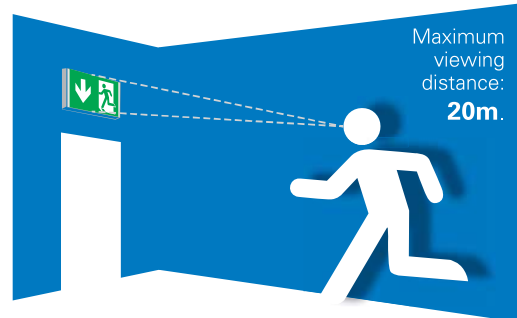

Maintained and Non-Maintained operation selectable via a sliding switch

With automatic test functions: Weekly function test and battery capacity test twice a year.

Test results are displayed via a dual colour LED.
