

FXSYG1WR, FXSYG1WR-WP - Conventional symphoni LX wall sounder beacons

The Symphoni LX Wall visual alarm device (VAD) is a durable sounder beacon that is certified to EN 54-23. Boasting impressive performance and a durable design, it ensures reliability and energy efficiency. Its high sound output makes it suitable for open areas or where there is higher than normal background noise.

This range includes a standard version, providing UK alarm tones and an "E" version that has tones including the German DIN tone and the Netherlands Slow Whoop.

The Symphoni LX is also available as a 'base-only' variant and both the normal and 'base-only' come in a weatherproof, IP66 variant.
