

Sounder Beacons

SQG3-23 base sounder VAD

The SQG3-23 is a combined audible and visual base unit. The mounting surface is suitable for the majority of European detectors.

Certified to EN54-23 as an 'Open class' visual alarm device (VAD), it ensures compliance to the latest European Legislation and provides a versatile notification and detection solution.

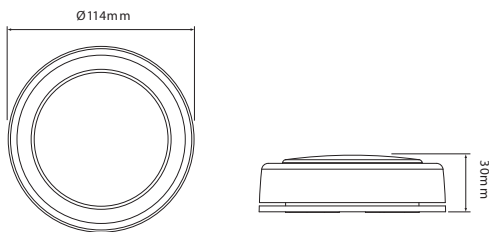

Features

- Certified to EN 54-23 & EN 54-3
- First fix base
- Fixing platform for most popular detectors
- Tamper proof cap for standalone use (supplied separately)

Benefits

- Suitable for use in fire systems throughout Europe
- Quick, simple installation
- Notification and detection in one unit saves on installation costs
