

Notice: Temporary Installation/Mounting Change for Eluxa Ceiling Horn, Strobe, and Horn/Strobe series (ELHNC, ELSTC, and ELHSC).

The Eluxa Ceiling products – ELHNC, ELSTC, and ELHSC can only be used with 4” square electrical boxes. Our pre-wire mounting plate will not accommodate an octagonal electrical box contrary to the documents below.

Data Sheet

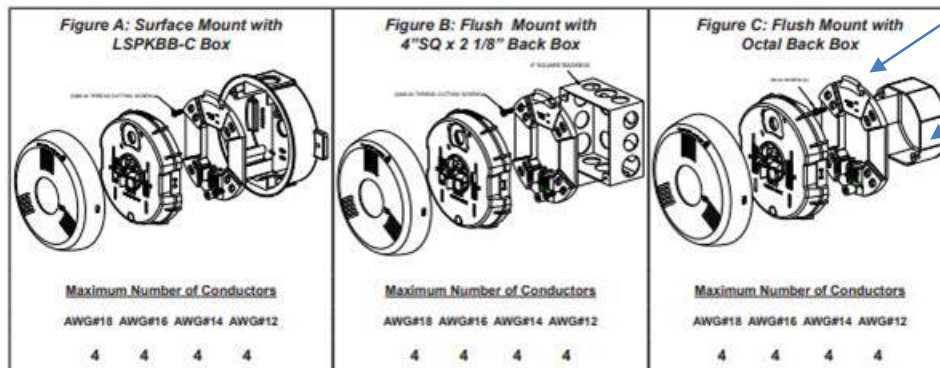

Mounting & Wire Connections

Mounting (indoor only)

Mounting plate included with all models. ELHS and ELST are for wall-mount applications only. ELHN can be used for wall and ceiling-mount applications. Wall mounting: Single-gang, ELSBB backboxes or to 4” square with adapter kit. ELHN can be used for wall and ceiling-mount applications. ELHSC and ELSTC are for ceiling mount applications only. The ELHNC can also be used for wall-mount applications. Ceiling mounting: LSPKBB-C backboxes or to 4” square, 1 1/2” or 2 1/8” and Octagonal, 1 1/2” or 2 1/8” deep

Installation Instructions

MOUNTING OPTIONS:

Our mounting plate is not compatible with the Octagon electrical box.

We are currently modifying our fabrication tool for the pre-wire mounting plate so it will accommodate both a 4” and octagonal electrical box in the near future. Please make sure the installing electrical contractor is aware of this change and uses the appropriate 4” square electrical box.
