

## Keyfobs

The PD6662:2010 compliant two-way keyfob (FOB-2W-4B) and one-way keyfob (i-FB01) both enable the user to remotely unset/set the system.

The two-way keyfob provides feedback on system status and confirms that the system has been set upon exit whilst the two-way keyfob can be programmed to be used as a panic button.

Both are designed to fit comfortably in your pocket or on a key ring.

Compatible with all current Eaton security control panels.

### At a glance...

- Long-life lithium battery
- Two-way keyfob provides system status
- Replaceable battery
- Enhanced transmission range (FOB-2W-4B)
- Configurable set/unset
- Learnt to user profile not radio zones
- Programmable output button which can be used to operate motorised gates.
