

Relay cards

8600 relay card

i-RC01 relay card

The 8600 relay expansion card is designed to fit a range of Eaton security equipment converting transistorised inputs to clean contact relay inputs. This card contains eight relays, each with its own dedicated input.

The i-RC01 relay card is used with i-on and Menvier control panels, EXP-W10 to convert the four on board transistorised outputs to clean contact relays. The relay card uses screw-free mountings specifically designed into these products for this purpose.

At a glance...

- Rated at 1Amp
- Supplied with three ready-terminated connecting cables
- Can be fitted to both wired and radio control panels
- Plug-on cables available

Product specification

	8600	i-RC01
