Eaton® data center solutions line card

Data Center Enclosures
IT racks that offer the industry's broadest range of compatibility, accessories and options for mission-critical data center equipment (configurations from 42U to 51U).

Two Post & Four Post Racks
Designed to meet a variety of application requirements for enterprise data centers, colocation providers and network closets.

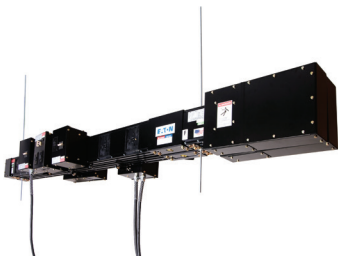

Wallmount Enclosures
Cost effective, versatile and secure means to mount communications cabling, networking gear and related equipment on a wall.

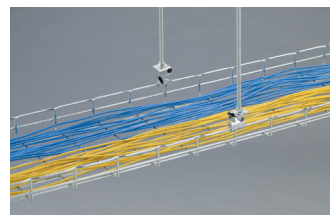

Airflow Management Solutions
Solutions include chimneys, aisle containment, overhead vertical wall systems and end of row doors.

Busway
Flexible neutral and ground options provide solutions for any application and multiple short-circuit withstand ratings ensure coordination with any electrical system.

Overhead Cable Management
Ladder racks and cable tray products for configuring flexible, robust overhead cable management solutions.

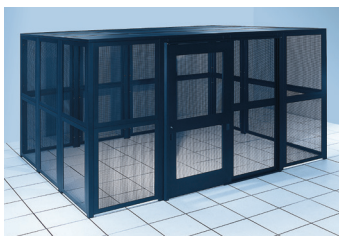

Rack-based Power Distribution and Management
Reliable and cost effective power distribution, with multiple size and receptacle choices as well as software to monitor alarms, readings and sensors. The new G3 platform allows IT managers to effectively monitor and manage their rack environments.

Network/Server and Data Center/Facility UPS 500 VA – 1100kVA
Uninterruptible power, backup power systems and power management for small, medium and large data centers.

Cages
Ideal for multi-tenant data centers, Eaton's cages provide the ultimate level of security for your valuable information systems.

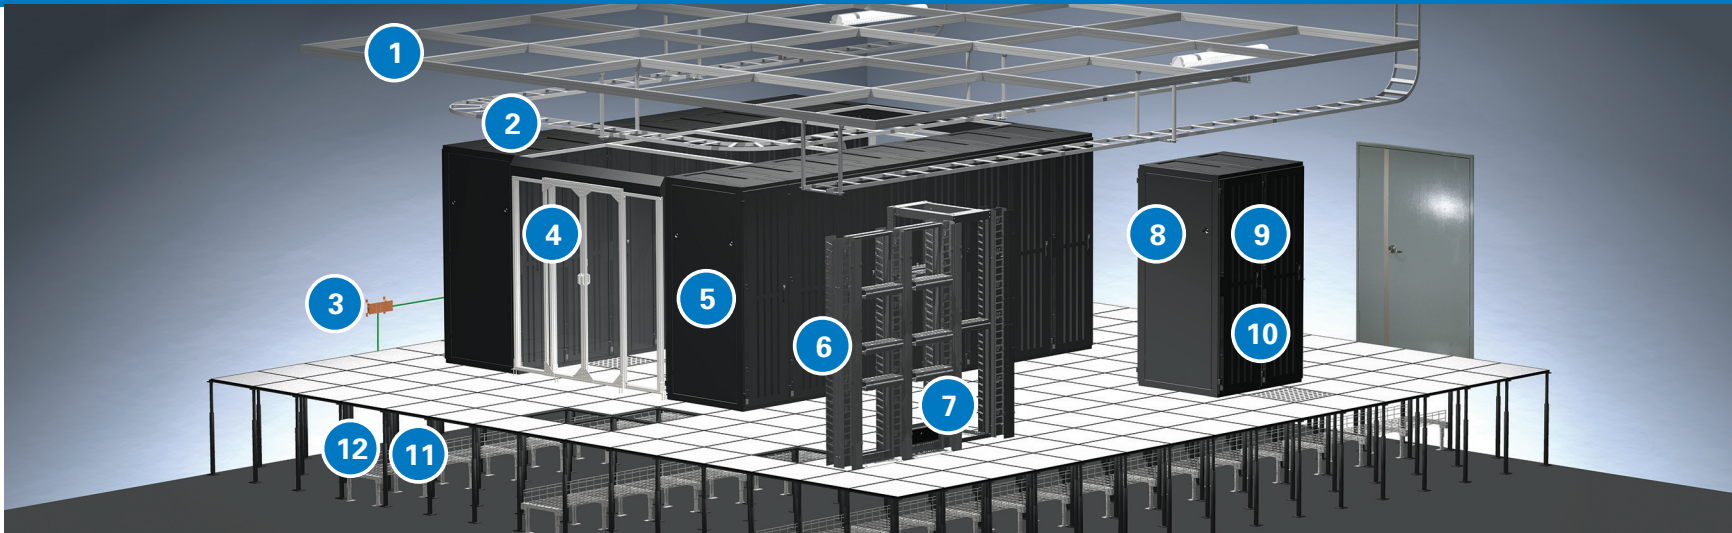

Command Consoles
Eaton's ergonomic command consoles offer advanced technology access and integrated cable management solutions on an ultra-durable steel frame system ideal for data center control/management facilities.
